

1. Record Nr.	UNISA996465428303316
Titolo	Database and Expert Systems Applications [[electronic resource]] : 11th International Conference, DEXA 2000 London, UK, September 4-8, 2000 Proceedings // edited by Mohamed Ibrahim, Josef Küng, Norman Revell
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2000
ISBN	3-540-44469-6
Edizione	[1st ed. 2000.]
Descrizione fisica	1 online resource (XIX, 1012 p.)
Collana	Lecture Notes in Computer Science, , 0302-9743 ; ; 1873
Disciplina	005.74
Soggetti	Data structures (Computer science) Artificial intelligence Database management Information storage and retrieval Application software Multimedia information systems Data Structures and Information Theory Artificial Intelligence Database Management Information Storage and Retrieval Information Systems Applications (incl. Internet) Multimedia Information Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Invited Talk -- Object Oriented, Object Relational I -- Multimedia Databases I -- Fundamentals for Applications I -- Object Oriented, Object Relational II -- Multimedia Databases II -- Fundamentals for Applications II -- Workflow -- Security Aspects -- Fundamentals for Applications III -- XML -- Advanced Databases I -- Query Aspects I -- Knowledge Aspects I -- Data Warehouses I -- Advanced Databases II -- Query Aspects II -- Knowledge Aspects II -- Data Warehouses II -- Advanced Databases III -- Query Aspects III -- Analysis and Design --

Data Mining, Knowledge Discovery -- Advanced Databases IV -- Query Aspects IV -- Using the Web I -- Indexing -- Applications I -- Using the Web II -- Distributed Aspects -- Applications II -- Multimedia Databases I - continuation.

Sommario/riassunto

The Database and Expert Systems Applications (DEXA) conferences have established themselves as a platform for bringing together researchers and practitioners from various backgrounds and all regions of the world to exchange ideas, experiences and opinions in a friendly and stimulating environment. The papers presented at the conference represent recent developments in the field and important steps towards shaping the future of applied computer science and information systems. DEXA covers a broad field: all aspects of databases, knowledge based systems, knowledge management, web-based systems, information systems, related technologies and their applications. Once again there were a good number of submissions: out of 183 papers that were submitted, the program committee selected 92 to be presented. In the first year of this new millennium DEXA has come back to the United Kingdom, following events in Vienna, Berlin, Valencia, Prague, Athens, London, Zurich, Toulouse, Vienna and Florence. The past decade has seen several revolutionary developments, one of which was the explosion of Internet-related applications in the areas covered by DEXA, developments in which DEXA has played a role and in which DEXA will continue to play a role in its second decade, starting with this conference.
