

1. Record Nr.	UNISA996465477803316
Titolo	Rough Sets and Current Trends in Computing [[electronic resource] ] : 8th International Conference, RSCTC 2012, Chengdu, China, August 17-20, 2012.Proceedings // edited by JingTao Yao, Yan Yang, Roman Slowiski, Salvatore Greco, Huaxiong Li, Sushmita Mitra, Lech Polkowski
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2012
ISBN	3-642-32115-1
Edizione	[1st ed. 2012.]
Descrizione fisica	1 online resource (498 p. 101 illus.)
Collana	Lecture Notes in Artificial Intelligence ; ; 7413
Disciplina	006.3
Soggetti	Artificial intelligence Data mining Mathematical logic Numerical analysis Application software Information storage and retrieval Artificial Intelligence Data Mining and Knowledge Discovery Mathematical Logic and Formal Languages Numeric Computing Information Systems Applications (incl. Internet) Information Storage and Retrieval
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and author index.
Nota di contenuto	Topical sections on rough sets and its applications -- Current trends in computing -- Decision-theoretic rough set model and applications -- Formal concept analysis and granular computing -- Mining complex data with granular computing -- Data mining competition.
Sommario/riassunto	This book constitutes the refereed proceedings of the 8th International Conference on Rough Sets and Current Trends in Computing, RSCTC, held in Chengdu, China, in August 2012, as one of the co-located conferences of the 2012 Joint Rough Set Symposium, JRS 2012. The 55

revised full papers presented together with one keynote paper were carefully reviewed and selected from numerous submissions. The papers are organized in topical sections on rough sets and its applications; current trends in computing; decision-theoretic rough set model and applications; formal concept analysis and granular computing; mining complex data with granular computing; data mining competition.
