1. Record Nr.   UNISA996465503803316

   Titolo   Service-Oriented Computing: Agents, Semantics, and Engineering
                       [[electronic resource]] : AAMAS 2007 International Workshop, SOCASE
                       2007, Honolulu, HI, USA, May 14, 2007, Proceedings / / edited by
                       Jingshan Huang, Ryszard Kowalczyk, Zakaria Maamar, David Martin,
                       Ingo Müller, Suzette Stoutenburg, Katia Sycara

   Pubbl/distr/stampa Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer,
                       , 2007

   ISBN   1-280-94076-X
                       9786610940769
                       3-540-72619-5

   Edizione   [1st ed. 2007.]

   Descrizione fisica 1 online resource (184 p.)

   Collana   Information Systems and Applications, incl. Internet/Web, and HCI ; ;
                       4504

   Disciplina   004.36

   Soggetti   Computer communication systems
                       Application software
                       Data mining
                       Database management
                       Multimedia information systems
                       Artificial intelligence
                       Computer Communication Networks
                       Information Systems Applications (incl. Internet)
                       Data Mining and Knowledge Discovery
                       Database Management
                       Multimedia Information Systems
                       Artificial Intelligence

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Note generali   "Proceedings of the Service-Oriented Computing: Agents, Semantics,
                       and Engineering (SOCASE 2007) workshop held at the International
                       Joint Conferences on Autonomous Agents and Multiagent Systems
                       (AAMAS 2007)"--Pref.

   Nota di bibliografia   Includes bibliographical references and index.

   Nota di contenuto   Executing Semantic Web Services with a Context-Aware Service
