1. Record Nr.            UNISA996465553903316

   Titolo                Integration of AI and OR Techniques in Constraint Programming for
                         Combinatorial Optimization Problems [[electronic resource] ] : 9th
                         International Conference, CPAIOR 2012, Nantes, France, May 28 - June
                         1, 2012, Proceedings / / edited by Nicolas Beldiceanu, Narendra
                         Jussien, Eric Pinson

   Pubbl/distr/stampa    Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer,
                         , 2012

   ISBN                  3-642-29828-1

   Edizione              [1st ed. 2012.]

   Descrizione fisica    1 online resource (XI, 409 p. 69 illus.)

   Collana               Theoretical Computer Science and General Issues, , 2512-2029 ; ; 7298

   Disciplina            519.6/4

   Soggetti              Numerical analysis
                         Computer science—Mathematics
                         Discrete mathematics
                         Algorithms
                         Artificial intelligence
                         Operations research
                         Numerical Analysis
                         Discrete Mathematics in Computer Science
                         Artificial Intelligence
                         Operations Research and Decision Theory

   Lingua di pubblicazione   Inglese

   Formato               Materiale a stampa

   Livello bibliografico Monografia

   Note generali         Bibliographic Level Mode of Issuance: Monograph

   Nota di bibliografia  Includes bibliographical references and index.

   Sommario/riassunto    This book constitutes the refereed proceedings of the 9th International
                         Conference on Integration of AI and OR Techniques in Constraint
                         Programming for Combinatorial Optimization Problems, CPAIOR 2012,
                         held in Nantes, France, in May/June 2012. The 26 revised full papers
                         presented were carefully reviewed and selected from 64 submissions.
                         The papers are focused on both theoretical and practical, application-
                         oriented issues in combinatorial optimization and feature current
                         research with a special focus on inference and relaxation methods,

integration methods, modeling methods, innovative applications of CP/AI/OR techniques, and implementation of CP/AI/OR techniques and optimization systems.
