

1. Record Nr.	UNISA996465580703316
Titolo	Human-computer interaction : ambient, ubiquitous and intelligent interaction : 13th international conference, HCI International 2009, San Diego, CA, USA, July 19-24, 2009, proceedings, part III // Julie A. Jacko, editor
Pubbl/distr/stampa	Berlin ; ; Heidelberg : , : Springer-Verlag, , [2009] ©2009
ISBN	1-282-29802-X 9786612298028 3-642-02580-3
Edizione	[1st ed. 2009.]
Descrizione fisica	1 online resource (828 p.)
Collana	Lecture Notes in Computer Science ; ; 5612
Disciplina	004.019
Soggetti	Human-computer interaction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	International conference proceedings.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Mobile Interaction -- In-Vehicle Interaction and Environment Navigation -- Agents, Avatars and Personalisation -- Ambient Interaction -- Affect, Emotion and Engagement -- 6: Smart and Wearable Materials and Devices.
Sommario/riassunto	The 13th International Conference on Human-Computer Interaction, HCI International 2009, was held in San Diego, California, USA, July 19-24, 2009, jointly with the Symposium on Human Interface (Japan) 2009, the 8th International Conference on Engineering Psychology and Cognitive Ergonomics, the 5th International Conference on Universal Access in Human-Computer Interaction, the Third International Conference on Virtual and Mixed Reality, the Third International Conference on Internationalization, Design and Global Development, the Third International Conference on Online Communities and Social Computing, the 5th International Conference on Augmented Cognition, the Second International Conference on Digital Human Modeling, and the First International Conference on Human Centered Design. A total of 4,348 individuals from academia, research institutes, industry and governmental agencies from 73 countries submitted contributions, and

1,397 papers that were judged to be of high scientific quality were included in the program. These papers address the latest research and development efforts and highlight the human aspects of the design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in the knowledge and effective use of computers in a variety of application areas.
