1. Record Nr.   UNISA996465598003316

   Titolo   FM 2016: Formal Methods [[electronic resource]] : 21st International Symposium, Limassol, Cyprus, November 9-11, 2016, Proceedings / / edited by John Fitzgerald, Constance Heitmeyer, Stefania Gnesi, Anna Philippou

   Pubbl/distr/stampa   Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016

   ISBN   3-319-48989-5

   Edizione   [1st ed. 2016.]

   Descrizione fisica   1 online resource (XXIII, 789 p. 204 illus.)

   Collana   Programming and Software Engineering ; ; 9995

   Disciplina   004.0151

   Soggetti   Software engineering
                         Mathematical logic
                         Computer logic
                         Management information systems
                         Computer science
                         Computers
                         Software Engineering
                         Mathematical Logic and Formal Languages
                         Logics and Meanings of Programs
                         Management of Computing and Information Systems
                         Computation by Abstract Devices

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Nota di bibliografia Includes bibliographical references and index.

   Nota di contenuto   Interdisciplinary formal methods -- Formal methods in practice -- Tools for formal methods -- Role of formal methods in software and systems engineering -- Theoretical foundations.

   Sommario/riassunto   This book constitutes the refereed proceedings of the 21st International Symposium on Formal Methods, FM 2016, held in Limassol, Cyprus, in November 2016. The 38 full papers and 11 short papers presented together with one abstract of an invited talk and one invited presentation were carefully reviewed and selected from 162 submissions. The broad topics of interest for FM include:

interdisciplinary formal methods; formal methods in practice; tools for formal methods; role of formal methods in software and systems engineering; theoretical foundations.
