1. Record Nr.   UNISA996465635303316

Titolo   Semantics of Concurrent Computation [[electronic resource]] : Proceedings of the International Symposium Evian, France, July 2-4, 1979 / / edited by G. Kahn

Pubbl/distr/stampa   Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 1979

ISBN   3-540-35163-9

Edizione   [1st ed. 1979.]

Descrizione fisica   1 online resource (VIII, 372 p.)

Collana   Lecture Notes in Computer Science, , 0302-9743 ; ; 70

Disciplina   005.1015113

Soggetti   Computer logic
                       Software engineering
                       Logics and Meanings of Programs
                       Software Engineering

Lingua di pubblicazione   Inglese

Formato   Materiale a stampa

Livello bibliografico Monografia

Note generali   Bibliographic Level Mode of Issuance: Monograph

Nota di contenuto   The temporal semantics of concurrent programs -- Modal logic of concurrent nondeterministic programs -- Non-deterministic system specification -- On properties preserved by contractions of concurrent systems -- Static analysis of concurrent processes for dynamic properties using Petri Nets -- Notion de Dualite et de Symetrie dans les Reseaux de Petri -- A characterization of concurrency-like relations -- The analysis of distributed systems by means of predicate/transition-nets -- On describing the behavior and implementation of distributed systems -- On the absence of livelocks in parallel programs -- Denotational semantics of parallelism -- An approach to fair applicative multiprogramming -- Modeling a solution for a control problem in distributed systems by restrictions -- Adequate path expressions -- Petri nets, event structures and domains -- An extensional treatment of dataflow deadlock -- On achieving distributed termination -- Specifying and proving properties of guardians for distributed systems -- Principles for distributing programs -- A Petri net definition of a system description language.
