

1. Record Nr.	UNISA996465638703316
Titolo	Advances in Swarm Intelligence [[electronic resource]] : First International Conference, ICSI 2010, Beijing, China, June 12-15, 2010, Proceedings, Part I // edited by KAY CHEN TAN
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2010
ISBN	1-280-38698-3 9786613564900 3-642-13495-5
Edizione	[1st ed. 2010.]
Descrizione fisica	1 online resource (XXVI, 746 p. 234 illus.)
Collana	Theoretical Computer Science and General Issues, , 2512-2029 ; ; 6145
Disciplina	006.3
Soggetti	Artificial intelligence Computer programming Algorithms Application software Computer science Computer networks Artificial Intelligence Programming Techniques Computer and Information Systems Applications Theory of Computation Computer Communication Networks
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Theoretical Analysis of Swarm Intelligence Algorithms -- PSO Algorithms -- Applications of PSO Algorithms -- ACO Algorithms -- Applications of ACO Algorithms -- Artificial Immune System -- Novel Swarm-Based Optimization Algorithms -- Genetic Algorithms -- Evolutionary Computation -- Hybrid Algorithms -- Multi-objective Optimization Algorithms -- Multi-robot Systems -- Multi-agent Based Complex Systems.
Sommario/riassunto	This book and its companion volume, LNCS vols. 6145 and 6146,

constitute the proceedings of the International Conference on Swarm Intelligence (ICSI 2010) held in Beijing, the capital of China, during June 12-15, 2010. ICSI 2010 was the first gathering in the world for researchers working on all aspects of swarm intelligence, and provided an academic forum for the participants to disseminate their new research findings and discuss emerging areas of research. It also created a stimulating environment for the participants to interact and exchange information on future challenges and opportunities of swarm intelligence research. ICSI 2010 received 394 submissions from about 1241 authors in 22 countries and regions (Australia, Belgium, Brazil, Canada, China, Cyprus, Hong Kong, Hungary, India, Islamic Republic of Iran, Japan, Jordan, Republic of Korea, Malaysia, Mexico, Norway, Pakistan, South Africa, Chinese Taiwan, UK, USA, Vietnam) across six continents (Asia, Europe, North America, South America, Africa, and Oceania). Each submission was reviewed by at least three reviewers. Based on rigorous reviews by the Program Committee members and reviewers, 185 high-quality papers were selected for publication in the proceedings with the acceptance rate of 46.9%. The papers are organized in 25 cohesive sections covering all major topics of swarm intelligence research and development.
