1. Record Nr.   UNISA996465709403316

   Titolo   Applied Cryptography and Network Security [[electronic resource]] :
                        14th International Conference, ACNS 2016, Guildford, UK, June 19-22,
                        2016. Proceedings / / edited by Mark Manulis, Ahmad-Reza Sadeghi,
                        Steve Schneider

   Pubbl/distr/stampa   Cham : , : Springer International Publishing : , : Imprint : Springer, ,
                        2016

   ISBN   3-319-39555-6

   Edizione   [1st ed. 2016.]

   Descrizione fisica   1 online resource (XIV, 668 p. 110 illus.)

   Collana   Security and Cryptology ; ; 9696

   Disciplina   005.82

   Soggetti   Computer security
                        Data encryption (Computer science)
                        Computer communication systems
                        Management information systems
                        Computer science
                        Computers
                        Computers and civilization
                        Systems and Data Security
                        Cryptology
                        Computer Communication Networks
                        Management of Computing and Information Systems
                        Theory of Computation
                        Computers and Society

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Nota di contenuto   Authentication and Key Establishment -- Signatures with Advanced
                        Properties -- DoS Attacks and Network Anomaly Detection --
                        Deterministic and Functional Encryption -- Computing on Encrypted
                        Data -- Non-Interactive Proofs and PRFs -- Symmetric Ciphers --
                        Cryptography in Software -- Security for Human Use.

   Sommario/riassunto   This book constitutes the refereed proceedings of the 14th
                        International Conference on Applied Cryptography and Network

Security, ACNS 2016, held in Guildford, UK. in June 2016. 5. The 35 revised full papers included in this volume and presented together with 2 invited talks, were carefully reviewed and selected from 183 submissions. ACNS is an annual conference focusing on innovative research and current developments that advance the areas of applied cryptography, cyber security and privacy. .
