

1. Record Nr.	UNISA996465762003316
Titolo	Research in Attacks, Intrusions, and Defenses [[electronic resource]] : 16th International Symposium, RAID 2013, Rodney Bay, St. Lucia, October 23-25, 2013, Proceedings / / edited by Salvatore J. Stolfo, Angelos Stavrou, Charles V. Wright
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2013
ISBN	3-642-41284-X
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (XII, 476 p. 139 illus.)
Collana	Security and Cryptology ; ; 8145
Disciplina	005.8205
Soggetti	Computer security Computer communication systems E-commerce Application software Systems and Data Security Computer Communication Networks e-Commerce/e-business Information Systems Applications (incl. Internet)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Building Companionship through Human-Robot Collaboration -- Older People's Involvement in the Development of a Social Assistive Robot -- What Older People Expect of Robots: A Mixed Methods Approach -- Modelling Human Game play at Pool and Countering It with an Anthropomorphic Robot -- Automated Assistance Robot System for Transferring Model-Free Objects From/To Human Hand Using Vision/Force Control -- Robot-Mediated Interviews: Do Robots Possess Advantages over Human Interviewers When Talking to Children with Special Needs? -- Multi domain Voice Activity Detection during Human-Robot Interaction -- A Low-Cost Classroom-Oriented Educational Robotics System -- Social Navigation - Identifying Robot Navigation Patterns in a Path Crossing Scenario -- Affordance-Based Activity Placement in Human-Robot Shared Environments -- Exploring

Requirements and Alternative Pet Robots for Robot Assisted Therapy with Older Adults with Dementia -- Smooth Reaching and Human-Like Compliance in Physical Interactions for Redundant Arms -- Recognition and Representation of Robot Skills in Real Time: A Theoretical Analysis -- Robots in Time: How User Experience in Human-Robot Interaction Changes over Time -- Interpreting Robot Pointing Behavior -- Coping with Stress Using Social Robots as Emotion-Oriented Tool: Potential Factors Discovered from Stress Game Experiment -- Study of a Social Robot's Appearance Using Interviews and a Mobile Eye-Tracking Device -- Playful Interaction with Voice Sensing Modular Robots -- Social Comparison between the Self and a Humanoid Self-Evaluation Maintenance Model in HRI and Psychological Safety -- Psychological Anthropomorphism of Robots Measuring Mind Perception and Humanity in Japanese Context -- The Ultimatum Game as Measurement Tool for Anthropomorphism in Human-Robot Interaction -- Human-Robot Upper Body Gesture Imitation Analysis for Autism Spectrum Disorders -- Low-Cost Whole-Body Touch Interaction for Manual Motion Control of a Mobile Service Robot -- Human-Robot Interaction between Virtual and Real Worlds: Motivation from RoboCup @Home -- Habituation and Sensitisation Learning in ASMO Cognitive Architecture -- Effects of Different Kinds of Robot Feedback -- The Frankenstein Syndrome Questionnaire – Results from a Quantitative Cross-Cultural Survey -- Region of Eye Contact of Humanoid Nao Robot is Similar to that of a Human -- Exploring Robot Etiquette: Refining a HRI Home Companion Scenario Based on Feedback from Two Artists Who Lived with Robots in the UH Robot House -- The Good, The Bad, The Weird: Audience Evaluation of a “Real” Robot in Relation to Science Fiction and Mass Media -- Systems Overview of Ono: A DIY Reproducible Open Source Social Robot -- Sharing Spaces, Sharing Lives – The Impact of Robot Mobility on User Perception of a Home Companion Robot -- Qualitative Design and Implementation of Human-Robot Spatial Interactions -- Unsupervised Learning Spatio-temporal Features for Human Activity Recognition from RGB-D Video Data -- Head Pose Patterns in Multiparty Human-Robot Team-Building Interactions -- I Would Like Some Food: Anchoring Objects to Semantic Web Information in Human-Robot Dialogue Interactions -- Situated Analysis of Interactions between Cognitively Impaired Older Adults and the Therapeutic Robot PARO -- Closing the Loop: Towards Tightly Synchronized Robot Gesture and Speech -- Teleoperation of Domestic Service Robots: Effects of Global 3D Environment Maps in the User Interface on Operators' Cognitive and Performance Metrics -- Artists as HRI Pioneers: A Creative Approach to Developing Novel Interactions for Living with Robots -- iCharibot: Design and Field Trials of a Fundraising Robot -- “It Don't Matter If You're Black or White”?- Effects of Robot Appearance and User Prejudice on Evaluations of a Newly Developed Robot Companion -- A Humanoid Robot Companion for Wheelchair Users -- Tuning Cost Functions for Social Navigation -- Child-Robot Interaction: Perspectives and Challenges -- Training a Robot via Human Feedback: A Case Study -- Real Time People Tracking in Crowded Environments with Range Measurements -- Who, How, Where: Using Exemplars to Learn Social Concepts -- An Asynchronous RGB-D Sensor Fusion Framework Using Monte-Carlo Methods for Hand Tracking on a Mobile Robot in Crowded Environments -- Using Spatial Semantic and Pragmatic Fields to Interpret Natural Language Pick-and-Place Instructions for a Mobile Service Robot -- Bodily Mood Expression: Recognize Moods from Functional Behaviors of Humanoid Robots -- Cooperative Robot Manipulator Control with Human 'pinning' for Robot Assistive Task Execution -- Effects of Politeness and

Interaction Context on Perception and Experience of HRI -- Facial Expressions and Gestures to Convey Emotions with a Humanoid Robot -- PEPITA: A Design of Robot Pet Interface for Promoting Interaction -- A Socially Assistive Robot to Support Physical Training of Older People -- An End User Acceptance Study -- How Do Companion-Type Service-Robots Fit into Daily Routines of the Elderly to Improve Quality of Life? -- Do Children Behave Differently with a Social Robot If with Peers? -- Is a Furry Pet More Engaging? Comparing the Effect of the Material on the Body Surface of Robot Pets -- Can You Trust Your Robotic Assistant? -- A Robotic Social Reciprocity in Children with Autism Spectrum Disorder -- Learning Complex Trajectories by Imitation Using Orthogonal Basis Functions and Template Matching -- Does Physical Interaction Escalate? -- Being There: Humans and Robots in Public Spaces -- Signaling Robot Trustworthiness: Effects of Behavioral Cues as Warnings -- Activity Switching in Child-Robot Interaction: A Hospital Case Study -- Addressing Multiple Participants: A Museum Robot's Gaze Shapes Visitor Participation -- Towards a Robotic Sports Instructor for High-Interaction Sports.

Sommario/riassunto

This book constitutes the proceedings of the 16th International Symposium on Research in Attacks, Intrusions and Defenses, former Recent Advances in Intrusion Detection, RAID 2013, held in Rodney Bay, St. Lucia in October 2013. The volume contains 22 full papers that were carefully reviewed and selected from 95 submissions, as well as 10 poster papers selected from the 23 submissions. The papers address all current topics in computer security ranged from hardware-level security, server, web, mobile, and cloud-based security, malware analysis, and web and network privacy.
