

1. Record Nr.	UNISA996465763603316
Titolo	Modeling and Mining Ubiquitous Social Media [[electronic resource] ] : International Workshops MSM 2011, Boston, MA, USA, October 9, 2011, and MUSE 2011, Athens, Greece, September 5, 2011, Revised Selected Papers // edited by Martin Atzmueller, Alvin Chin, Denis Helic, Andreas Hotho
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2012
ISBN	3-642-33684-1
Edizione	[1st ed. 2012.]
Descrizione fisica	1 online resource (XII, 183 p. 57 illus.)
Collana	Lecture Notes in Artificial Intelligence ; ; 7472
Disciplina	006.3
Soggetti	Artificial intelligence User interfaces (Computer systems) Data mining Information storage and retrieval Architecture, Computer Computers and civilization Artificial Intelligence User Interfaces and Human Computer Interaction Data Mining and Knowledge Discovery Information Storage and Retrieval Computer System Implementation Computers and Society
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Integrating Social Media Data for Community Detection -- Face-to-Face Contacts at a Conference: Dynamics of Communities and Roles -- Factors Influencing the Co-evolution of Social and Content Networks in Online Social Media -- Mining Dense Structures to Uncover Anomalous Behaviour in Financial Network Data -- Describing Locations Using Tags and Images: Explorative Pattern Mining in Social Media -- Learning and Transferring Geographically Weighted Regression Trees

across Time -- Trend Cluster Based Kriging Interpolation in Sensor Data Networks -- Simulation of User Participation and Interaction in Online Discussion Groups -- Model-Driven Privacy and Security in Multi-modal Social Media UIs.

**Sommario/riassunto**

This book constitutes the joint thoroughly refereed post-proceedings of the Second International Workshop on Modeling Social Media, MSM 2011, held in Boston, MA, USA, in October 2011, and the Second International Workshop on Mining Ubiquitous and Social Environments, MUSE 2011, held in Athens, Greece, in September 2011. The 9 full papers included in the book are revised and significantly extended versions of papers submitted to the workshops. They cover a wide range of topics organized in three main themes: communities and networks in ubiquitous social media; mining approaches; and issues of user modeling, privacy and security.

## Sommario/riassunto

Is Canada becoming a more polarized society? Or is it a kind-hearted nation that takes care of its disadvantaged? This volume closely examines these differing views through a careful analysis of the causes, trends, and dimensions of inequality to provide an overall assessment of the state of inequality in Canada. Contributors include economists, sociologists, philosophers, and political scientists, and the discussion ranges from frameworks for thinking about inequality, to original analyses using Canadian data, to assessments of significant policy issues, methodologies, and research directions. What emerges is the most detailed picture of inequality in Canada to date and, disturbingly, one that shows signs of us becoming a less just society. An invaluable source of information for policy makers, researchers, and students from a broad variety of disciplines, *Dimensions of Inequality in Canada* will also appeal to readers interested or involved in public debates over inequality.
