1.	Record Nr.	UNISA996465792803316
	Titolo	Advances in Knowledge Discovery and Data Mining [[electronic resource]] : 10th Pacific-Asia Conference, PAKDD 2006, Singapore, April 9-12, 2006, Proceedings / / edited by Wee Keong Ng, Masaru Kitsuregawa, Jianzhong Li
	Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2006
	ISBN	3-540-33207-3
	Edizione	[1st ed. 2006.]
	Descrizione fisica	1 online resource (XXIV, 879 p.)
	Collana	Lecture Notes in Artificial Intelligence ; ; 3918
	Disciplina	005.74
	Soggetti	Data structures (Computer science)
		Artificial intelligence
		Database management
		Information storage and retrieval
		Mathematical statistics
		Multimedia information systems
		Data Structures and Information Theory
		Artificial Intelligence
		Database Management
		Information Storage and Retrieval
		Probability and Statistics in Computer Science
		Multimedia Information Systems
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Bibliographic Level Mode of Issuance: Monograph
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Keynote Speech -- Invited Speech -- Classification -- Ensemble Learning -- Ensemble Learning -- Support Vector Machines -- Text and Document Mining -- Web Mining -- Graph and Network Mining -- Association Rule Mining -- Bio-data Mining -- Outlier and Intrusion Detection -- Privacy -- Relational Database -- Multimedia Mining -- Stream Data Mining -- Temporal Data Mining -- Temporal Data Mining -- Innovative Applications.
	Sommario/riassunto	The Pacific-Asia Conference on Knowledge Discovery and Data Mining

(PAKDD) is a leading international conference in the area of data mining and knowledge discovery. This year marks the tenth anniversary of the successful annual series of PAKDD conferences held in the Asia Pacific region. It was with pleasure that we hosted PAKDD 2006 in Singapore again, since the inaugural PAKDD conference was held in Singapore in 1997. PAKDD 2006 continues its tradition of providing an international forum for researchers and industry practitioners to share their new ideas, original research results and practical development experiences from all aspects of KDD data mining, including data cleaning, data warehousing, data mining techniques, knowledge visualization, and data mining applications. This year, we received 501 paper submissions from 38 countries and regions in Asia, Australasia, North America and Europe, of which we accepted 67 (13.4%) papers as regular papers and 33 (6.6%) papers as short papers. The distribution of the accepted papers was as follows: USA (17%), China (16%), Taiwan (10%), Australia (10%), Japan (7%), Korea (7%), Germany (6%), Canada (5%), Hong Kong (3%), Singapore (3%), New Zealand (3%), France (3%), UK (2%), and the rest from various countries in the Asia Pacific region.
