

1. Record Nr.	UNISA996465803303316
Autore	Gamberini Luciano
Titolo	Symbiotic Interaction [[electronic resource] ] : 5th International Workshop, Symbiotic 2016, Padua, Italy, September 29–30, 2016, Revised Selected Papers // edited by Luciano Gamberini, Anna Spagnoli, Giulio Jacucci, Benjamin Blankertz, Jonathan Freeman
Pubbl/distr/stampa	Cham, : Springer Nature, 2017 Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	3-319-57753-0
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XIV, 182 p. 51 illus.)
Collana	Information Systems and Applications, incl. Internet/Web, and HCI ; ; 9961
Disciplina	005.7
Soggetti	Application software User interfaces (Computer systems) Artificial intelligence Computer security Optical data processing Special purpose computers Information Systems Applications (incl. Internet) User Interfaces and Human Computer Interaction Artificial Intelligence Systems and Data Security Image Processing and Computer Vision Special Purpose and Application-Based Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book is published open access under a CC BY license. This book constitutes the proceedings of the 5th International Workshop on Symbiotic Interaction, Symbiotic 2016, held in Padua, Italy, in October 2016. The 12 full papers and 3 short papers presented in this volume were carefully reviewed and selected from 23 submissions. The idea of

symbiotic systems put forward in this workshop capitalizes on the computers' ability to implicitly detect the users goals, preferences or/and psycho-physiological states and thereby enhancing human-computer interaction (HCI). The papers present an overview of the symbiotic relationships between humans and computers with emphasis on user-driven research on symbiotic systems, adaptive systems, implicit input data, physiological computing and BCI, but also on understanding the nature of the interdependence and agency between computers and humans more broadly.
