

1. Record Nr.	UNISA996465827003316
Titolo	Rough Set and Knowledge Technology [[electronic resource]] : 5th International Conference, RSKT 2010, Beijing, China, October 15-17, 2010, Proceedings // edited by Jian Yu, Salvatore Greco, Pawan Lingras, Guoyin Wang, Andrzej Skowron
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2010
ISBN	1-280-38967-2 9786613567598 3-642-16248-7
Edizione	[1st ed. 2010.]
Descrizione fisica	1 online resource (XVII, 781 p. 178 illus.)
Collana	Lecture Notes in Artificial Intelligence ; ; 6401
Disciplina	006.3
Soggetti	Artificial intelligence Data mining Database management Mathematical logic Computers Pattern recognition Artificial Intelligence Data Mining and Knowledge Discovery Database Management Mathematical Logic and Formal Languages Computation by Abstract Devices Pattern Recognition
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Keynote Speech -- Rough Sets and Computing Theory -- Fuzzy Sets -- Knowledge Technology -- Intelligent Information Processing -- Health Informatics and Biometrics Authentication -- Neural Networks -- Complex Networks -- Granular Computing -- Metaheuristic -- Special Session: Cloud Model and Its Application -- Special Session: Data Mining in Cloud Computing -- Special Session: Decision-Theoretic

The International Conference on Rough Set and Knowledge Technology (RSKT) has been held every year since 2006. RSKT serves as a major forum that brings researchers and industry practitioners together to discuss and deliberate on fundamental issues of knowledge processing and management and knowledge-intensive practical solutions in the current knowledge age. Experts from around the world meet to present state-of-the-art scientific results, to nurture academic and industrial interaction, and to promote collaborative research in rough sets and knowledge technology. The first RSKT was held in Chongqing, China, followed by RSKT 2007 in Toronto, Canada, RSKT 2008 in Chengdu, China and RSKT 2009 in Gold Coast, Australia. RSKT 2010, the 5th in the series, was held in Beijing, China, October 15–17, 2010. This volume contains 98 papers selected for presentation at RSKT 2010. Following the success of the previous conferences, RSKT 2010 continued the tradition of a very rigorous reviewing process. Every submission was reviewed by at least two reviewers. Moreover, RSKT 2010 invited several area chairs to supervise the review process of every submission. Most submissions were reviewed by three experts. The Program Committee members were deeply involved in a highly engaging selection process with discussions among reviewers and area chairs. When necessary, additional expert reviews were sought. As a result, only top-quality papers were chosen for presentation at the conference, including 49 regular papers (acceptance rate of 28%) and 25 short papers (acceptance rate of 14.3%). We would like to thank all the authors for contributing their best papers. Without their support, this conference would not have been possible.
