

1. Record Nr.	UNISA996465827903316
Titolo	Multilingual Information Access for Text, Speech and Images [[electronic resource]] : 5th Workshop of the Cross-Language Evaluation Forum, CLEF 2004, Bath, UK, September 15-17, 2004, Revised Selected Papers // edited by Paul Clough, Julio Gonzalo, Michael Kluck, Bernardo Magnini
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2005
Edizione	[1st ed. 2005.]
Descrizione fisica	1 online resource (XVI, 848 p.)
Collana	Information Systems and Applications, incl. Internet/Web, and HCI ; ; 3491
Disciplina	025.04
Soggetti	Information storage and retrieval Artificial intelligence Application software Natural language processing (Computer science) Information Storage and Retrieval Artificial Intelligence Information Systems Applications (incl. Internet) Natural Language Processing (NLP)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	What Happened in CLEF 2004? -- I. Ad Hoc Text Retrieval Tracks -- II. Domain-Specific Document Retrieval -- III. Interactive Cross-Language Information Retrieval -- IV. Multiple Language Question Answering -- V. Cross-Language Retrieval in Image Collections -- VI. Cross- Language Spoken Document Retrieval -- VII. Issues in CLIR and in Evaluation.
Sommario/riassunto	The 5th campaign of the Cross-Language Evaluation Forum (CLEF) for European languages was held from January to September 2004. Participation in the CLEF campaigns has increased each year and CLEF 2004 was no exception: 55 groups submitted results for one or more of the different tracks compared with 42 groups in the previous year.

CLEF 2004 also marked a breaking point with respect to previous campaigns. The focus was no longer mainly concentrated on multilingual document retrieval as in previous years but was diversified to include different kinds of text retrieval across languages (e. g. , exact answers in the question-answering track) and retrieval on different kinds of media (i. e. , not just plain text but collections containing image and speech as well). In addition, increasing attention was given to issues that regard system usability and user satisfaction with tasks to measure the effectiveness of interactive systems or system components being included in both the cross-language question - answering and image retrieval tasks with the collaboration of the coordinators of the interactive track. The campaign culminated in a two-and-a-half-day workshop held in Bath, UK, 15–17 September, immediately following the 8th European Conference on Digital Libraries. The workshop was attended by nearly 100 researchers and system developers.
