

1. Record Nr.	UNISA996465889203316
Titolo	Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2010 [[electronic resource]] : 13th International Conference, Beijing, China, September 20-24, 2010, Proceedings, Part III // edited by Tianzi Jiang, Nassir Navab, Josien P.W. Pluim, Max A. Viergever
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2010
ISBN	1-280-38895-1 9786613566874 3-642-15711-4
Edizione	[1st ed. 2010.]
Descrizione fisica	1 online resource (XXV, 686 p. 686 illus. in color.)
Collana	Image Processing, Computer Vision, Pattern Recognition, and Graphics ; ; 6363
Disciplina	006.6 006.37
Soggetti	Optical data processing User interfaces (Computer systems) Computer simulation Pattern recognition Computer graphics Image Processing and Computer Vision User Interfaces and Human Computer Interaction Simulation and Modeling Pattern Recognition Computer Graphics Computer Imaging, Vision, Pattern Recognition and Graphics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Segmentation and Modeling -- Robotics, Motion Modeling and Computer-Assisted Interventions -- Image Reconstruction, Enhancement and Representation -- Computer Aided Diagnosis.
Sommario/riassunto	The 13th International Conference on Medical Image Computing and Computer-Assisted Intervention, MICCAI 2010, was held in Beijing, China from

20-24 September, 2010.

The venue was the China National Convention Center (CNCC), China's largest and newest conference center with excellent facilities and a prime location in the heart of the Olympic Green, adjacent to characteristic constructions like the Bird's Nest (National Stadium) and the Water Cube (National Aquatics Center). MICCAI is the foremost international scientific event in the field of medical image computing and computer-assisted interventions. The annual conference has a high scientific standard by virtue of the threshold for acceptance, and accordingly MICCAI has built up a track record of attracting leading scientists, engineers and clinicians from a wider range of technical and biomedical disciplines. This year, we received 786 submissions, well in line with the previous two conferences in New York and London. Three program chairs and a program committee of 31 scientists, all with a recognized standing in the field of the conference, were responsible for the selection of the papers. The review process was set up such that each paper was considered by the three program chairs, two program committee members, and a minimum of three external reviewers. The review process was double-blind, so the reviewers did not know the identity of the authors of the submission. After a careful evaluation procedure, in which all controversial and gray area papers were discussed individually, we arrived at a total of 251 accepted papers for MICCAI 2010, of which 45 were selected for podium presentation and 206 for poster presentation. The acceptance percentage (32%) was in keeping with that of previous MICCAI conferences. All 251 papers are included in the three MICCAI 2010 LNCS volumes.
