1. Record Nr.   UNISA996465894303316

   Titolo   Computational Science - ICCS 2006 [[electronic resource]] : 6th
                         International Conference, Reading, UK, May 28-31, 2006, Proceedings,
                         Part III / / edited by Vassil N. Alexandrov, G. Dick van Albada, Peter M.
                         A. Sloot, J. J. Dongarra

   Pubbl/distr/stampa   Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer,
                         , 2006

   ISBN   3-540-34384-9

   Edizione   [1st ed. 2006.]

   Descrizione fisica   1 online resource (XXXVI, 1136 p.)

   Collana   Theoretical Computer Science and General Issues, , 2512-2029 ; ; 3993

   Disciplina   004.0151

   Soggetti   Computer science
                         Software engineering
                         Numerical analysis
                         Computer networks
                         Image processing—Digital techniques
                         Computer vision
                         Computer simulation
                         Theory of Computation
                         Software Engineering
                         Numerical Analysis
                         Computer Communication Networks
                         Computer Imaging, Vision, Pattern Recognition and Graphics
                         Computer Modelling

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Note generali   Bibliographic Level Mode of Issuance: Monograph

   Nota di bibliografia Includes bibliographical references and index.

   Nota di contenuto   GeoComputation -- Computational Chemistry and Its Applications --
                         Knowledge and Information Management in Computer Communication
                         Systems (KIMCCS 2006) -- Modelling of Complex Systems by Cellular
                         Automata (MCSCA 2006) -- Dynamic Data Driven Application Systems
                         (DDDAS 2006) -- Parallel Monte Carlo Algorithms for Diverse
                         Applications in a Distributed Setting -- International Workshop on
                         Intelligent Storage Technology (IST06) -- Intelligent Agents in
