

1. Record Nr.	UNISA996465895003316
Titolo	Communication Technologies for Vehicles [[electronic resource]] : Third International Workshop, Nets4Cars/Nets4Trains 2011, Oberpfaffenhofen, Germany, March 23-24, 2011, Proceedings // edited by Thomas Strang, Andreas Festag, Alexey Vinel, Rashid Mehmood, Cristina Rico Garcia, Matthias Röckl
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2011
ISBN	3-642-19786-8
Edizione	[1st ed. 2011.]
Descrizione fisica	1 online resource (XIII, 239 p.)
Collana	Computer Communication Networks and Telecommunications ; ; 6596
Disciplina	621.3845
Soggetti	Computer communication systems Special purpose computers Management information systems Computer science Personal computers Automotive engineering Electrical engineering Computer Communication Networks Special Purpose and Application-Based Systems Management of Computing and Information Systems Personal Computing Automotive Engineering Communications Engineering, Networks Conference papers and proceedings.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This book constitutes the joint refereed proceedings of the Third International Workshop on Communication Technologies for Vehicles, Nets4Cars 2011 and the First International Workshop on Communication Technologies for Vehicles in the Railway

Transportation, Nets4Trains 2011, held in Oberpfaffenhofen, Germany, in March 2011. The 7 full papers of the rail track and 12 full papers of the road track presented together with a keynote were carefully reviewed and selected from 13 and 21 submissions respectively. They provide an overview over the latest technologies and research in the field of intra- and inter-vehicle communication and present original research results in areas relating to communication protocols and standards, mobility and traffic models, experimental and field operational testing, and performance analysis.
