1. Record Nr.   UNISA996465929703316

   Titolo   Social Computing, Behavioral-Cultural Modeling and Prediction
                         [[electronic resource]] : 4th International Conference, SBP 2011,
                         College Park, MD, USA, March 29-31, 2011. Proceedings / / edited by
                         John Salerno, Shanchieh Jay Yang, Dana Nau, Sun-Ki Chai

   Pubbl/distr/stampa   Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer,
                         , 2011

   ISBN   3-642-19656-X

   Edizione   [1st ed. 2011.]

   Descrizione fisica   1 online resource (XIII, 384 p.)

   Collana   Information Systems and Applications, incl. Internet/Web, and HCI ; ;
                         6589

   Disciplina   004

   Soggetti   Computers and civilization
                         Application software
                         Management information systems
                         Computer science
                         Data mining
                         Computer communication systems
                         Computers and Society
                         Computer Appl. in Social and Behavioral Sciences
                         Management of Computing and Information Systems
                         Data Mining and Knowledge Discovery
                         Computer Communication Networks
                         Information Systems Applications (incl. Internet)

   Nota di bibliografia Includes bibliographical references and index.

   Sommario/riassunto   This book constitutes the refereed proceedings of the 4th International
                         Conference on Social Computing, Behavioral-Cultural Modeling and
                         Prediction, held in College Park, MD, USA, March 29-31, 2011. The 48
                         papers and 3 keynotes presented in this volume were carefully
                         reviewed and selected from 88 submissions. The papers cover a wide
                         range of topics including social network analysis; modeling; machine

learning and data mining; social behaviors; public health; cultural aspects; and effects and search.
