| | Edizione | [1st ed. 2011.] |
| | Descrizione fisica | 1 online resource (XIV, 670 p.) |
| | Collana | Computer Communication Networks and Telecommunications ; ; 6701 |
| | Disciplina | 004.6 |
| | Soggetti | Computer communication systems<br>Computer science—Mathematics<br>Algorithms<br>Application software<br>Data structures (Computer science)<br>Electrical engineering<br>Computer Communication Networks<br>Discrete Mathematics in Computer Science<br>Algorithm Analysis and Problem Complexity<br>Information Systems Applications (incl. Internet)<br>Data Structures<br>Communications Engineering, Networks |
| | Lingua di pubblicazione | Inglese |
| | Formato | Materiale a stampa |
| | Livello bibliografico | Monografia |
| | Note generali | Bibliographic Level Mode of Issuance: Monograph |
| | Nota di bibliografia | Includes bibliographical references and index. |
| | Nota di contenuto | pt. 1. Theoretical problems/uncertainty/graph theory/network design -- pt. 2. Network flow -- pt. 3. Routing and transportation -- pt. 4. Further optimization problems and applications. |
| | Sommario/riassunto | This book constitutes the refereed proceedings of the 5th International Conference on Network Optimization, INOC 2011, held in Hamburg, Germany, in June 2011. The 65 revised full papers presented were carefully reviewed and selected from numerous submissions. The papers highlight recent developments in network optimization and are organized in the following topical sections: theoretical problems, |

uncertainty, graph theory and network design; network flows; routing and transportation; and further optimization problems and applications (energy oriented network design, telecom applications, location, maritime shipping, and graph theory).
