1. Record Nr.          UNISA996465975303316

   Titolo               Principles of Distributed Systems [[electronic resource] ] : 15th
                        International Conference, OPODIS 2011, Toulouse, France, December
                        13-16, 2011, Proceedings / / edited by Antonio Fernández Anta,
                        Giuseppe Lipari, Matthieu Roy

   Pubbl/distr/stampa   Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer,
                        , 2011

   ISBN                 3-642-25873-5

   Edizione             [1st ed. 2011.]

   Descrizione fisica   1 online resource (XIII, 564 p.)

   Collana              Theoretical Computer Science and General Issues, , 2512-2029 ; ; 7109

   Disciplina           QA76.9.D5

   Soggetti             Computer networks
                        Algorithms
                        Computer science—Mathematics
                        Discrete mathematics
                        Software engineering
                        Artificial intelligence
                        Computer Communication Networks
                        Discrete Mathematics in Computer Science
                        Software Engineering
                        Artificial Intelligence
                        Symbolic and Algebraic Manipulation

   Lingua di pubblicazione   Inglese

   Formato              Materiale a stampa

   Livello bibliografico   Monografia

   Note generali        Bibliographic Level Mode of Issuance: Monograph

   Nota di bibliografia Includes bibliographical references and author index.

   Sommario/riassunto   This book constitutes the refereed proceedings of the 15th
                        International Conference on Principles of Distributed Systems, OPODIS
                        2011, held in Toulouse, France, in December 2011. The 26 revised
                        papers presented in this volume were carefully reviewed and selected
                        from 96 submissions. They represent the current state of the art of the
                        research in the field of the design, analysis and development of
                        distributed and real-time systems.
