| | Livello bibliografico | Monografia |
| | Note generali | Bibliographic Level Mode of Issuance: Monograph |
| | Nota di bibliografia | Includes bibliographical references and index. |
| | Nota di contenuto | Distributed Objects and Applications and Secure Virtual Infrastructures (DOA-SVI) 2012 -- Privacy in the Cloud -- Resource Management and Assurance.-Context, Compliance and Attack -- Ontologies, DataBases, and Applications of Semantics (ODBASE) 2012 -- Using Ontologies and Semantics -- Applying Probabilistic Techniques to Semantic  Information.-Exploiting and Querying Semantic Information.-Managing and Storing Semantic Information. |

**Sommario/riassunto**

The two-volume set LNCS 7565 and 7566 constitutes the refereed proceedings of three confederated international conferences: Cooperative Information Systems (CoopIS 2012), Distributed Objects and Applications - Secure Virtual Infrastructures (DOA-SVI 2012), and Ontologies, DataBases and Applications of SEmantics (ODBASE 2012) held as part of OTM 2012 in September 2012 in Rome, Italy. The 53 revised full papers presented were carefully reviewed and selected from a total of 169 submissions. The 31 full papers included in the second volume constitute the proceedings of DOA-SVI 2012 with 10 full papers organized in topical sections on privacy in the cloud; resource management and assurance; context, compliance and attack; and ODBASE 2012 with 21 full papers organized in topical sections on using ontologies and semantics; applying probalistic techniques to semantic information; exploiting and querying semantic information; and managing and storing semantic information.
