1. Record Nr.   UNISA996466124503316

   Titolo   Frontiers of Combining Systems [[electronic resource]] : Third
                        International Workshop, FroCoS 2000 Nancy, France, March 22-24,
                        2000 Proceedings / / edited by Helene Kirchner, Christophe Ringeissen

   Pubbl/distr/stampa   Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer,
                        , 2000

   ISBN   3-540-46421-2

   Edizione   [1st ed. 2000.]

   Descrizione fisica   1 online resource (X, 298 p.)

   Collana   Lecture Notes in Artificial Intelligence ; ; 1794

   Disciplina   511.3

   Soggetti   Mathematical logic
                        Artificial intelligence
                        Mathematical Logic and Foundations
                        Artificial Intelligence
                        Mathematical Logic and Formal Languages

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Note generali   Bibliographic Level Mode of Issuance: Monograph

   Nota di bibliografia Includes bibliographical references at the end of each chapters and
                        index.

   Nota di contenuto   Invited Paper -- Combining Logic and Optimization in Cutting Plane
                        Theory -- Session 1 -- Towards Cooperative Interval Narrowing --
                        Integrating Constraint Solving into Proof Planning -- Termination of
                        Constraint Contextual Rewriting -- Invited Paper -- Axioms vs. Rewrite
                        Rules: From Completeness to Cut Elimination -- Session 2 -- Normal
                        Forms and Proofs in Combined Modal and Temporal Logics --
                        Structured Sequent Calculi for Combining Intuitionistic and Classical
                        First-Order Logic -- Session 3 -- Handling Differential Equations with
                        Constraints for Decision Support -- Non-trivial Symbolic Computations
                        in Proof Planning -- Integrating Computer Algebra and Reasoning
                        through the Type System of Aldor -- Invited Paper -- Combinations of
                        Model Checking and Theorem Proving -- Session 4 -- Compiling Multi-
                        paradigm Declarative Programs into Prolog -- Modular Redundancy for
                        Theorem Proving -- Composing and Controlling Search in Reasoning
                        Theories Using Mappings -- Invited Paper -- Why Combined Decision
                        Problems Are Often Intractable -- Session 5 -- Congruence Closure
                        Modulo Associativity and Commutativity -- Combining Equational
