   Sommario/riassunto   This book constitutes the refereed proceedings of the 11th
                               International Conference on Information Systems Security, ICISS 2015,
                               held in Kolkata, India, in December 2015. The 24 revised full papers
                               and 8 short papers presented together with 4 invited papers were
                               carefully reviewed and selected from 133 submissions. The papers
                               address the following topics: access control; attacks and mitigation;
                               cloud security; crypto systems and protocols; information flow control;

sensor networks and cognitive radio; and watermarking and steganography.
