1. Record Nr.   UNISA996466233503316

   Titolo   Intelligence and Security Informatics [[electronic resource]] : 12th
                        Pacific Asia Workshop, PAISI 2017, Jeju Island, South Korea, May 23,
                        2017, Proceedings / / edited by G. Alan Wang, Michael Chau, Hsinchun
                        Chen

   Pubbl/distr/stampa   Cham : , : Springer International Publishing : , : Imprint : Springer, ,
                        2017

   ISBN   3-319-57463-9

   Edizione   [1st ed. 2017.]

   Descrizione fisica   1 online resource (VII, 151 p. 55 illus.)

   Collana   Security and Cryptology ; ; 10241

   Disciplina   005.8

   Soggetti   Computer security
                        Computers and civilization
                        Computers
                        Law and legislation
                        Computer communication systems
                        Application software
                        Artificial intelligence
                        Systems and Data Security
                        Computers and Society
                        Legal Aspects of Computing
                        Computer Communication Networks
                        Information Systems Applications (incl. Internet)
                        Artificial Intelligence

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Nota di bibliografia   Includes bibliographical references and index.

   Sommario/riassunto   This book constitutes the refereed proceedings of the 12th Pacific Asia
                        Workshop on Intelligence and Security Informatics, PAISI 2017, held in
                        Jeju Island, South Korea, in May 2017 in conjunction with PAKDD 2017,
                        the 21st Pacific-Asia Conference on Knowledge Discovery and Data
                        Mining. The 8 revised full papers and one short paper were carefully
                        reviewed and selected from 13 submissions. The papers cover topics

such as information access and security, cybersecurity and infrastructure protection, data and text mining, and network based data analytics.
