

1. Record Nr.	UNISA996466247203316
Titolo	Human Aspects of Information Security, Privacy and Trust [[electronic resource]] : First International Conference, HAS 2013, Held as Part of HCI International 2013, Las Vegas, NV, USA, July 21-26, 2013. Proceedings // edited by Louis Marinou, Ioannis Askoxylakis
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2013
ISBN	3-642-39345-4
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (XX, 378 p. 102 illus.)
Collana	Information Systems and Applications, incl. Internet/Web, and HCI ; ; 8030
Disciplina	029.7
Soggetti	User interfaces (Computer systems) Computer security E-commerce Computers and civilization Application software Information storage and retrieval User Interfaces and Human Computer Interaction Systems and Data Security e-Commerce/e-business Computers and Society Computer Applications Information Storage and Retrieval
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Novel authentication systems -- Human factors in security -- Security and privacy policies -- User centric security and privacy.
Sommario/riassunto	This book constitutes the refereed proceedings of the First International Conference on Human Aspects of Information Security, Privacy and Trust, HAS 2013, held as part of the 15th International Conference on Human-Computer Interaction, HCII 2013, held in Las Vegas, USA in July 2013, jointly with 12 other thematically similar

conferences. The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The total of 39 contributions was carefully reviewed and selected for inclusion in the HAS proceedings. The papers are organized in the following topical sections: novel authentication systems; human factors in security; security and privacy policies; and user centric security and privacy.
