1. Record Nr.   UNISA996466250303316

   Titolo   Programming Languages and Systems [[electronic resource]] : 21st
                               European Symposium on Programming, ESOP 2012, Held as Part of the
                               European Joint Conferences on Theory and Practice of Software, ETAPS
                               2012, Tallinn, Estonia, March 24 - April 1, 2012, Proceedings / / edited
                               by Helmut Seidl

   Pubbl/distr/stampa   Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer,
                               , 2012

   ISBN   3-642-28869-3

   Edizione   [1st ed. 2012.]

   Descrizione fisica   1 online resource (XV, 602 p.)

   Collana   Programming and Software Engineering ; ; 7211

   Disciplina   005.1

   Soggetti   Software engineering
                               Computer communication systems
                               Computer logic
                               Computer programming
                               Programming languages (Electronic computers)
                               Mathematical logic
                               Software Engineering
                               Computer Communication Networks
                               Logics and Meanings of Programs
                               Programming Techniques
                               Programming Languages, Compilers, Interpreters
                               Mathematical Logic and Formal Languages

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Note generali   International conference proceedings.

   Nota di bibliografia   Includes bibliographical references and author index.

   Sommario/riassunto   This book constitutes the refereed proceedings of the 21st European
                               Symposium on Programming, ESOP 2012, held in Tallinn, Estonia, as
                               part of ETAPS 2012, in March/April 2012. The 28 full papers, presented
                               together with one full length invited talk, were carefully reviewed and
                               selected from 92 submissions. Papers were invited on all aspects of
                               programming language research, including: programming paradigms

and styles, methods and tools to write and specify programs and languages, methods and tools for reasoning about programs, methods and tools for implementation, and concurrency and distribution.
