| Titolo | Medical Image Computing and Computer-Assisted Intervention MICCAI 2017 [[electronic resource]] : 20th International Conference, Quebec City, QC, Canada, September 11-13, 2017, Proceedings, Part II // edited by Maxime Descoteaux, Lena Maier-Hein, Alfred Franz, Pierre Jannin, D. Louis Collins, Simon Duchesne |
| Pubbl/distr/stampa | Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017 |
| ISBN | 3-319-66185-X |
| Edizione | [1st ed. 2017.] |
| Descrizione fisica | 1 online resource (XXVIII, 785 p. 319 illus.) |
| Collana | Image Processing, Computer Vision, Pattern Recognition, and Graphics ; ; 10434 |
| Disciplina | 610.28 |
| Soggetti | Optical data processing Artificial intelligence Mathematical statistics Pattern recognition Health informatics Image Processing and Computer Vision Artificial Intelligence Probability and Statistics in Computer Science Pattern Recognition Health Informatics |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Nota di bibliografia | Includes bibliographical references and index. |
| Sommario/riassunto | The three-volume set LNCS 10433, 10434, and 10435 constitutes the refereed proceedings of the 20th International Conference on Medical Image Computing and Computer-Assisted Intervention, MICCAI 2017, held in Quebec City, Canada, in September 2017. The 255 revised full papers presented were carefully reviewed and selected from 800 submissions in a two-phase review process. The papers have been organized in the following topical sections: Part I: atlas and surface-based techniques; shape and patch-based techniques; registration |

techniques, functional imaging, connectivity, and brain parcellation; diffusion magnetic resonance imaging (dMRI) and tensor/fiber processing; and image segmentation and modelling. Part II: optical imaging; airway and vessel analysis; motion and cardiac analysis; tumor processing; planning and simulation for medical interventions; interventional imaging and navigation; and medical image computing. Part III: feature extraction and classification techniques; and machine learning in medical image computing.
