1. Record Nr.   UNISA996466294003316

   Titolo   Image and Graphics [[electronic resource]] : 10th International
                        Conference, ICIG 2019, Beijing, China, August 23–25, 2019,
                        Proceedings, Part III / / edited by Yao Zhao, Nick Barnes, Baoquan
                        Chen, Rüdiger Westermann, Xiangwei Kong, Chunyu Lin

   Pubbl/distr/stampa   Cham : , : Springer International Publishing : , : Imprint : Springer, ,
                        2019

   ISBN   3-030-34113-5

   Edizione   [1st ed. 2019.]

   Descrizione fisica   1 online resource (688 pages)

   Collana   Image Processing, Computer Vision, Pattern Recognition, and Graphics ;
                        ; 11903

   Disciplina   006.6869

   Soggetti   Optical data processing
                        Artificial intelligence
                        Computers
                        Image Processing and Computer Vision
                        Artificial Intelligence
                        Information Systems and Communication Service

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Nota di contenuto   Compression, transmission, retrieval -- multi-view and stereoscopic
                        processing -- security, surveillance and remote sensing -- virtual
                        reality -- feature learning for cross-domain problems -- advanced
                        signal processing methods in spectral imaging -- computer vision for
                        autonomous driving -- learning toward visual recognition.

   Sommario/riassunto   This three-volume set LNCS 11901, 11902, and 11903 constitutes the
                        refereed conference proceedings of the 10thth International Conference
                        on Image and Graphics, ICIG 2019, held in Beijing, China, in August
                        2019. The 183 full papers presented were selected from 384
                        submissions and focus on advances of theory, techniques and
                        algorithms as well as innovative technologies of image, video and
                        graphics processing and fostering innovation, entrepreneurship, and
                        networking.
