   Sommario/riassunto This book constitutes the refereed proceedings of the 6th Iberian
                       Conference on Pattern Recognition and Image Analysis, IbPRIA 2013,
                       held in Funchal, Madeira, Portugal, in June 2013. The 105 papers (37
                       oral and 68 poster ones) presented were carefully reviewed and
                       selected from 181 submissions. The papers are organized in topical
                       sections on computer vision, pattern recognition, image and signal,
                       applications.
