   Sommario/riassunto This book constitutes the refereed proceedings of the 16th
                     International Semantic Web Conference, ESWC 2019, held in Portorož,
                     Slovenia. The 39 revised full papers presented were carefully reviewed
                     and selected from 134 submissions. The papers are organized in three
                     tracks: research track, resources track, and in-use track and deal with

the following topical areas: distribution and decentralisation, velocity on the Web, research of research, ontologies and reasoning, linked data, natural language processing and information retrieval, semantic data management and data infrastructures, social and human aspects of the Semantic Web, and, machine learning.
