   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Note generali   Includes index.

   Sommario/riassunto   This book constitutes the refereed conference proceedings of the 7th
                        Annual Privacy Forum, APF 2019, held in Rome, Italy, in June 2019. The
                        11 revised full papers were carefully reviewed and selected from 49
                        submissions. The papers present original work on the themes of data
                        protection and privacy and their repercussions on technology,
                        business, government, law, society, policy and law enforcement
                        bridging the gap between research, business models, and policy. They
                        are organized in topical sections on transparency, users' rights, risk
                        assessment, and applications.
