Titolo	Computer Security [[electronic resource]] : ESORICS 2018 International Workshops, CyberICPS 2018 and SECPRE 2018, Barcelona, Spain, September 6–7, 2018, Revised Selected Papers // edited by Sokratis K. Katsikas, Frédéric Cuppens, Nora Cuppens, Costas Lambrinouidakis, Annie Antón, Stefanos Gritzalis, John Mylopoulos, Christos Kalloniatis
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-12786-9
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (X, 233 p. 108 illus., 78 illus. in color.)
Collana	Security and Cryptology ; ; 11387
Disciplina	005.8
Soggetti	Seguridad informática Delitos por ordenador Computers Law and legislation Computer organization Software engineering Application software Systems and Data Security Computer Crime Legal Aspects of Computing Computer Systems Organization and Communication Networks Software Engineering Information Systems Applications (incl. Internet)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	This book constitutes the thoroughly refereed post-conference proceedings of the 4th International Workshop on the Security of Industrial Control Systems and Cyber-Physical Systems, CyberICPS 2018, and the Second International Workshop on Security and Privacy Requirements Engineering, SECPRE 2018, held in Barcelona, Spain, in

September 2018, in conjunction with the 23rd European Symposium on Research in Computer Security, ESORICS 2018. The CyberICPS Workshop received 15 submissions from which 8 full papers were selected for presentation. They cover topics related to threats, vulnerabilities and risks that cyber-physical systems and industrial control systems face; cyber attacks that may be launched against such systems; and ways of detecting and responding to such attacks. From the SECPRE Workshop 5 full papers out of 11 submissions are included. The selected papers deal with aspects of security and privacy requirements assurance and evaluation; and security requirements elicitation and modelling.
