

1. Record Nr.	UNISA996466377903316
Titolo	Multigrid methods II : proceedings of the 2nd European Conference on Multigrid Methods, held at Cologne, October 1-4, 1985 // edited by Wolfgang Hackbusch, Ulrich Trottenberg
Pubbl/distr/stampa	Berlin, Germany : , : Springer, , [1986] ©1986
ISBN	3-540-47372-6
Edizione	[1st ed. 1986.]
Descrizione fisica	1 online resource (VIII, 336 p.)
Collana	Lecture Notes in Mathematics, , 0075-8434 ; ; 1228
Disciplina	515.353
Soggetti	Differential equations, Partial - Numerical solutions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	A multigrid solver for a stabilized finite element discretization of the Stokes problem -- A-posteriori error estimates. Adaptive local mesh refinement and multigrid iteration -- Continuation and multi-grid for nonlinear elliptic systems -- Magnetohydrodynamic equilibrium calculations using multigrid -- On the combination of the multigrid method and conjugate gradients -- Multi-level approaches to discrete-state and stochastic problems -- Multigrid method for nearly singular and slightly indefinite problems -- An adaptive multi-grid scheme for simulation of flows -- Multigrid methods for calculating the lifting potential incompressible flows around three-dimensional bodies -- Defect correction and higher order schemes for the multi grid solution of the steady Euler equations -- Multigrid algorithms for compressible flow calculations -- Bus coupled systems for multigrid algorithms -- On multigrid and iterative aggregation methods for nonsymmetric problems -- The multigrid method on parallel processors -- On the treatment of singularities in the multigrid method -- A comparison of several Mg-methods for the solution of the time-dependent Navier-Stokes equations -- Second order accurate upwind solutions of the 2D steady Euler equations by the use of a defect correction method -- Multigrid method in subspace and domain partitioning in the discrete solution of elliptic problems -- Fas multigrid employing ILU/SIP smoothing: A robust fast solver for 3D transonic potential flow.
