1. Record Nr.   UNISA996466469303316

   Titolo   Text, Speech, and Dialogue [[electronic resource]] : 20th International
                       Conference, TSD 2017, Prague, Czech Republic, August 27-31, 2017,
                       Proceedings / / edited by Kamil Ekštein, Václav Matoušek

   Pubbl/distr/stampa Cham : , : Springer International Publishing : , : Imprint : Springer, ,
                       2017

   ISBN   3-319-64206-5

   Edizione   [1st ed. 2017.]

   Descrizione fisica 1 online resource (XXI, 520 p. 94 illus.)

   Collana   Lecture Notes in Artificial Intelligence ; ; 10415

   Disciplina   006.35

   Soggetti   Artificial intelligence
                       Application software
                       Information storage and retrieval
                       Database management
                       Pattern recognition
                       Data mining
                       Artificial Intelligence
                       Information Systems Applications (incl. Internet)
                       Information Storage and Retrieval
                       Database Management
                       Pattern Recognition
                       Data Mining and Knowledge Discovery

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Nota di contenuto   Corpora and language resources -- Speech recognition -- Tagging,
                       classification and parsing of text and speech -- Speech and spoken
                       language generation -- Semantic processing of text and speech --
                       Integrating applications of text and speech processing -- Automatic
                       dialogue systems -- Multimodal techniques and modelling.

   Sommario/riassunto This book constitutes the proceedings of the 20th International
                       Conference on Text, Speech, and Dialogue, TSD 2017, held in Prague,
                       CzechRepublic, in August 2017. The 56 regular papers presented
                       together with 3 abstracts of keynote talks were carefully reviewed and

selected from 117 submissions. They focus on topics such as corpora and language resources; speech recognition; tagging, classification and parsing of text and speech; speech and spoken language generation; semantic processing of text and speech; integrating applications of text and speech processing; automatic dialogue systems; as well as multimodal techniques and modelling.
