1. Record Nr.   UNISA996466642103316

   Autore   Viro O. IA. <1948->

   Titolo   Topology and geometry : Rohlin seminar / / Oleg Y. Viro

   Pubbl/distr/stampa Berlin ; ; Heidelberg : , : Springer, , [1988]
                      ©1988

   ISBN   3-540-45958-8

   Edizione   [1st ed. 1988.]

   Descrizione fisica 1 online resource (XIV, 586 p.)

   Collana   USSR Subseries ; ; 1346

   Disciplina   516.00285

   Soggetti   Geometry - Data processing
                      Geometry - Research

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Note generali   Bibliographic Level Mode of Issuance: Monograph

   Nota di contenuto On some problems in symplectic topology -- The structure of 1-
                      dimensional wave fronts, non-standard legendrian loops and
                      Bennequin's theorem -- Massey operations in the cohomology of the
                      infinite dimensional Lie algebra L1 -- New zeta functions for dynamical
                      systems and Nielsen fixed point theory -- Invariant portrait of
                      Hamiltonian integrable in Liouville sense -- On normal form of
                      distribution jets -- Analytical theory of homotopy groups -- On stable
                      manifolds for class of two-dimensional diffeomorphisms -- Some
                      integral calculus based on Euler characteristic -- Obstructions to the
                      existence of free nonholonomic structure on a smooth manifold --
                      Non-diffeomorphic but homeomorphic knottings of surfaces in the 4-
                      sphere -- Automorphisms of Teichmüller modular groups --
                      Classification of oriented montesinos links via spin structures --
                      Towards the topological classification of geometric 3-manifolds --
                      Classification of simply-connected topological 6-manifolds -- Plane
                      real projective quartic curves -- Nonamphicheiral surfaces of degree 4
                      in ?P3 -- Extensions of the Gudkov-Rohlin congrunce -- Isotopy
                      classification of plane seventh degree curves with the only singular
                      point Z15 -- Incomplete intersections and degenerations of complete
                      intersections -- Projective varieties defined by small number of
                      equations are complete intersections -- On the classification of non-
                      singular curves of degree 8 -- New M- and (M-1)-curves of degree 8

-- On topological properties of spaces of polytopes -- Configurations of seven points in ?P3 -- The universality theorems on the classification problem of configuration varieties and convex polytopes varieties -- Isotopic but not rigidly isotopic plane systems of straight lines -- Topology of the convex polytopes' manifolds, the manifold of the projective configurations of a given combinatorial type and representations of lattices.

Sommario/riassunto	This volume is a collection of papers dedicated to the memory of V. A. Rohlin (1919-1984) - an outstanding mathematician and the founder of the Leningrad topological school. It includes survey and research papers on topology of manifolds, topological aspects of the theory of complex and real algebraic varieties, topology of projective configuration spaces and spaces of convex polytopes.

Record Nr.	UNINA9910705709803321
Titolo	Let's talk! : improving performance feedback discussions for employees and supervisors
Pubbl/distr/stampa	[Washington, D.C.] : , : United States Nuclear Regulatory Commission, Office of Human Resources, , 2008
Descrizione fisica	1 online resource (2 unnumbered pages) : color illustrations
Collana	NUREG/BR ; ; 0347
Soggetti	Job evaluation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"June 2008"--Page [4] of cover.
