   Note generali   Bibliographic Level Mode of Issuance: Monograph

   Nota di contenuto   Fixed point free automorphism groups -- Strong containment of fitting
                       classes -- Nonabelian subgroups of prime-power order of classical
                       groups of the same prime degree -- A note on groups with the inverse
                       Lagrange property -- A note concerning coxeter groups and
                       permutations -- Strongly pure subgroups of Abelian groups -- Relative
                       cohomology of groups -- Determination of groups of prime-power
                       order -- On partially transitive projective planes of certain Hughes
                       types -- Groups whose modular group rings have soluble unit groups
                       -- Computing soluble groups -- A note on the Todd-Coxeter
                       algorithm -- Locally soluble groups satisfying the minimal condition
                       for normal subgroups -- Some results in group representation theory.
