

1. Record Nr.	UNISA996466670703316
Autore	Cobza tefan
Titolo	Lipschitz Functions [[electronic resource] /] / by tefan Cobza, Radu Miculescu, Adriana Nicolae
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-16489-6
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (XIV, 593 p. 2 illus.)
Collana	Lecture Notes in Mathematics, , 0075-8434 ; ; 2241
Disciplina	515.7
Soggetti	Functional analysis Functions of real variables Approximation theory Operator theory Convex geometry Discrete geometry Functional Analysis Real Functions Approximations and Expansions Operator Theory Convex and Discrete Geometry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	The aim of this book is to present various facets of the theory and applications of Lipschitz functions, starting with classical and culminating with some recent results. Among the included topics we mention: characterizations of Lipschitz functions and relations with other classes of functions, extension results for Lipschitz functions and Lipschitz partitions of unity, Lipschitz free Banach spaces and their applications, compactness properties of Lipschitz operators, Bishop-Phelps type results for Lipschitz functionals, applications to best approximation in metric and in metric linear spaces, Kantorovich-Rubinstein norm and applications to duality in the optimal transport

problem, Lipschitz mappings on geodesic spaces. The prerequisites are basic results in real analysis, functional analysis, measure theory (including vector measures) and topology, which, for reader's convenience, are surveyed in the first chapter of the book.
