

1. Record Nr.	UNISA996466672303316
Autore	Pilyugin Sergei Yu (Sergei Yurievitch), <1947->
Titolo	The space of dynamical systems with the C^0 -topology // Sergei Yu. Pilyugin
Pubbl/distr/stampa	Berlin ; ; Heidelberg : , : Springer-Verlag, , [1994] ©1994
ISBN	3-540-48314-4
Edizione	[1st ed. 1994.]
Descrizione fisica	1 online resource (CCIV, 194 p.)
Collana	Lecture Notes in Mathematics ; ; Volume 1571
Disciplina	515.352
Soggetti	Differentiable dynamical systems Lyapunov functions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Definitions and preliminary results -- Generic properties of dynamical systems -- Topological stability -- Perturbations of attractors -- Limit sets of domains.
Sommario/riassunto	This book is an introduction to main methods and principal results in the theory of C^0 (remark: o is upper index!!)-small perturbations of dynamical systems. It is the first comprehensive treatment of this topic. In particular, C^0 (upper index!)-generic properties of dynamical systems, topological stability, perturbations of attractors, limit sets of domains are discussed. The book contains some new results (Lipschitz shadowing of pseudotrajectories in structurally stable diffeomorphisms for instance). The aim of the author was to simplify and to "visualize" some basic proofs, so the main part of the book is accessible to graduate students in pure and applied mathematics. The book will also be a basic reference for researchers in various fields of dynamical systems and their applications, especially for those who study attractors or pseudotrajectories generated by numerical methods.
