

1. Record Nr.	UNISA996466760503316
Titolo	Lyapunov exponents : proceedings of a conference held in Oberwolfach, May 28 - June 2 1990 // L. Arnold, H. Crauel, I. P. Eckmann, editors
Pubbl/distr/stampa	Berlin ; ; Heidelberg : , : Springer-Verlag, , [1991] ©1991
ISBN	3-540-46431-X
Edizione	[1st ed. 1991.]
Descrizione fisica	1 online resource (VIII, 368 p.)
Collana	Lecture Notes in Mathematics ; ; 1486
Classificazione	58-06
Disciplina	003
Soggetti	Stochastic systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Random dynamical systems -- Lyapunov exponents and asymptotic behaviour of the product of random matrices -- Lyapunov exponents of random dynamical systems on grassmannians -- Eigenvalue representation for the Lyapunov exponents of certain Markov processes -- Analytic dependence of Lyapunov exponents on transition probabilities -- A second order extension of Oseledets theorem -- The upper Lyapunov exponent of $SI(2,R)$ cocycles: Discontinuity and the problem of positivity -- Linear skew-product flows and semigroups of weighted composition operators -- Filtre de Kalman Bucy et exposants de Lyapunov -- Invariant measures for nonlinear stochastic differential equations -- How to construct stochastic center manifolds on the level of vector fields -- Additive noise turns a hyperbolic fixed point into a stationary solution -- Lyapunov functions and almost sure exponential stability -- Large deviations for random expanding maps -- Multiplicative ergodic theorems in infinite dimensions -- Stochastic flow and lyapunov exponents for abstract stochastic PDEs of parabolic type -- The Lyapunov exponent for products of infinite-dimensional random matrices -- Lyapunov exponents and complexity for interval maps -- An inequality for the Lyapunov exponent of an ergodic invariant measure for a piecewise monotonic map of the interval -- Généralisation du théorème de Pesin pour l'entropie -- Systems of classical interacting particles with nonvanishing Lyapunov exponents --

Lyapunov exponents from time series -- Lyapunov exponents in stochastic structural dynamics -- Stochastic approach to small disturbance stability in power systems -- Lyapunov exponents and invariant measures of equilibria and limit cycles -- Sample stability of multi-degree-of-freedom systems -- Lyapunov exponents of control flows.
