

1. Record Nr.	UNISA996466854303316
Autore	Sucheston Louis
Titolo	Contributions to ergodic theory and probability : proceedings of the First Midwestern Conference on Ergodic Theory, held at the Ohio State University, March 27-30, 1970 // organized by Louis Sucheston
Pubbl/distr/stampa	Berlin ; ; Heidelberg ; ; New York : , : Springer-Verlag, , [1970] ©1970
ISBN	3-540-36371-8
Edizione	[1st ed. 1970.]
Descrizione fisica	1 online resource (VII, 281 p.)
Collana	Lecture notes in mathematics ; ; 160
Disciplina	515.42
Soggetti	Ergodic theory Probabilities
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Continuous flows in the plane -- New conditions for existence of invariant measures in ergodic theory -- Approximation and spectral multiplicity -- Approximation and invariance -- On some applications of probability methods to additive number theoretic problems -- Example of an ergodic measure preserving transformation on an infinite measure space -- Some results on convergence rates for weighted averages -- A note on σ -finite invariant measures -- Super-mean-valued functions and semipolar sets -- Liftings and derivation bases -- Lipschitz functions and the prevalence of strict ergodicity for continuous-time flows -- Weak ratio convergence of measures in infinite measure spaces -- Transformations without finite invariant measure have finite strong generators -- On the Araki-Woods asymptotic ratio set and non-singular transformations of a measure space -- Imbedding Bernoulli shifts in flows -- On the existence of a σ -finite invariant measure under a generalized Harris condition -- The Ambrose-Kakutani theorem and the poisson process -- Generalized martingales -- Local ergodic theorems for N-parameter semigroups of operators.
