Sommario/riassunto	This book provides all of the information a practitioner needs in order to begin work with clients with Dissociative Identity Disorder (DID). Drawing on experiences from her own practice and extensive research conducted with the help of internationally acclaimed experts in the field, the author describes the development of DID and the structure of the personality of these clients. The reader is guided through the assessment process, the main phases and components of treatment, and the issues and contentions that may arise in this work. Throughout the text there are case examples, practical exe
