

1. Record Nr.	UNISA996490344203316
Autore	Zhao Bingxuan
Titolo	Combined measure and shift invariance theory of time scales and applications // Chao Wang, Ravi P. Agarwal
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	3-031-11619-4
Descrizione fisica	1 online resource (443 pages)
Collana	Developments in Mathematics ; ; v.77
Disciplina	381
Soggetti	Differential equations Equacions diferencials Anàlisi funcional Teoria de la mesura Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Preface -- Contents -- 1 Riemann Integration, Stochastic Calculus, and Shift Operators on Time Scales -- 1.1 Riemann Integration on Time Scales -- 1.1.1 Riemann Delta and Nabla Integration on Time Scales -- 1.1.2 Some Fundamental Results of the Riemann Integral -- 1.1.3 Fundamental Theorems of Calculus -- 1.2 Stochastic Calculus and Dynamic Equations on Time Scales -- 1.2.1 Relation Between Classical Integrable Functions and -Integrable Functions -- 1.2.2 Stochastic Calculus -- 1.2.3 Stochastic Dynamic Equations on Time Scales -- 1.3 Shift Operators on Time Scales -- 1.3.1 Shift Operators -- 1.3.2 Periodicity of Time Scales -- 1.4 Combined Dynamic Derivatives on Time Scales -- 1.4.1 Delta and Nabla Derivatives -- 1.4.2 Diamond- Dynamic Derivative -- 1.4.3 Some Basic Properties of Combined Dynamic Derivatives -- 1.4.4 Combined Dynamic Integrations -- 1.5 Combined Liouville Formula and -Matrix Exponential Solutions -- 1.5.1 Liouville Formula for - Dynamic Equations -- 1.5.2 Liouville Formula for -Dynamic Equations and Some Lemmas -- 1.5.3 Liouville Formula for Diamond- Dynamic Equations -- 1.6 Quaternion Combined Impulsive Matrix Dynamic

Equation on Time Scales -- 1.6.1 Quaternion Delta and Nabla
Exponential Function -- 1.6.2 Quaternion Matrix Diamond-Exponential
Function and Quaternion Combined Matrix Dynamic Equation -- 1.6.3
Quaternion Impulsive Nonhomogeneous Matrix Combined Dynamic
Equation -- 2 -Measurability and Combined Measure Theory on Time
Scales -- 2.1 Lebesgue Measurable and Lebesgue -Measurable Sets
-- 2.1.1 -Measure -- 2.1.2 Lebesgue Measurable and Lebesgue -
Measurable Sets -- 2.2 -Measurable Functions and Lebesgue
Measurable Functions -- 2.2.1 -Measurable Functions -- 2.2.2
Lebesgue Measurable and Lebesgue -Measurable Functions -- 2.3 -
Integral on Time Scales -- 2.3.1 Riemann -Integral.
2.3.2 Lebesgue -Integral on Time Scales -- 2.3.3 Relation Between
Lebesgue -Integral and Riemann -Integral -- 2.4 Lebesgue-Stieltjes
Combined -Measure and Integral on Time Scales -- 2.4.1 Lebesgue-
Stieltjes -Outer Measure and Related Properties -- 2.4.2 Lebesgue-
Stieltjes -Measure and Related Properties -- 2.4.3 Relationships,
Extensions, and Composition Theorems for Lebesgue-Stieltjes -
Measure -- 2.5 Lebesgue-Stieltjes -Measurable Function and -
Integral -- 2.5.1 Lebesgue-Stieltjes -Measurable Function and
Convergence Theorems -- 2.5.2 Lebesgue-Stieltjes -Integral -- 2.5.3
Relationships, Extensions, and Composition Theorems of Lebesgue-
Stieltjes -Integral -- 3 Shift Invariance and Matched Spaces of Time
Scales -- 3.1 Periodic Time Scales with Shift Operators -- 3.2
Singularity of Time Scales Under Action of Shift Operators -- 3.3
Complete-Closed Time Scales Under Shifts -- 3.4 The Matched Space
of Time Scales and Shift Invariance -- 3.5 Singularity of Time Scales
Under Action of Shift Operators and -1 -- 3.6 Singularity Avoiding:
A Shift with Direction -- 4 Almost Periodic Functions Under Matched
Spaces of Time Scales -- 4.1 Periodic Functions Under Complete-
Closed Time Scales in Shifts -- 4.2 -Almost Periodic Functions Under
Matched Spaces -- 4.3 Piecewise -Almost Periodic Stochastic Process
in Shift Operators -- 4.4 n_0 -Order -Almost Periodic Functions -- 5
Almost Automorphic Functions Under Matched Spaces of Time Scales
-- 5.1 Weighted Pseudo -Almost Automorphic Functions Under
Matched Spaces -- 5.2 n_0 -Order Weighted Pseudo -Almost
Automorphic Functions -- 5.3 Discontinuous Weighted Pseudo S-
Almost Automorphic Functions -- 5.3.1 S-Equipotentially Almost
Automorphic Sequence Under S-CCTS -- 5.3.2 S-Almost Automorphic
Functions and Weighted Pseudo S-Almost Automorphic Functions.
6 C_0 -Semigroup and Stepanov-Like Almost Automorphic Functions on
Hybrid Time Scales -- 6.1 C_0 -Semigroup on a Quantum Time Scale --
6.2 Stepanov-Like Almost Automorphic Functions on a Quantum Time
Scale -- 6.3 Weak Almost Automorphy on a Quantum Time Scale -- 6.4
Shift-Semigroup Under Matched Spaces of Time Scales -- 6.5
Stepanov-Like Almost Automorphic Functions in Matched Spaces of
Time Scales -- 7 Almost Periodic Dynamic Equations Under Matched
Spaces -- 7.1 Basic Theory of Nonlinear Almost Periodic Dynamic
Equations -- 7.2 Exponential Dichotomy of Inhomogeneous Dynamic
Equations -- 7.3 -Almost Periodic Solutions of Dynamic Equations --
7.4 n_0 -Order -Almost Periodic Solutions for Dynamic Equations -- 8
Almost Automorphic Dynamic Equations Under Matched Spaces -- 8.1
Weighted Pseudo -Almost Automorphic Solutions for Dynamic
Equations -- 8.2 n_0 -Order Weighted Pseudo -Almost Automorphic
Solutions for Dynamic Equations -- 8.3 Almost Automorphic Impulsive
Dynamic Equations Based on Shift Operators -- 9 Applications to
Dynamics Models Under Matched Spaces -- 9.1 Almost Periodic Neutral
Impulsive Stochastic Lasota-Ważewska Timescale Model -- 9.1.1
Introduction and Model Description -- 9.1.2 Inverse Representation of

the Neutral Term with Shift Operator -- 9.1.3 Existence of Mean-Square Almost Periodic Solution -- 9.2 Almost Periodic Impulsive Stochastic Nicholson's Blowflies Timescale Model -- 9.2.1 Model Description -- 9.2.2 Almost Periodic Stochastic Process Under Periodic Time Scales with Shifts -- 9.2.3 Mean-Square Positive Almost Periodic Solutions to the Model with Shift Operators -- 9.3 A Numerical Example and the Model on the Quantum Time Scale -- References -- Index.
