

1. Record Nr.	UNISA996490348503316
Titolo	Dirichlet forms and related topics : in honor of Masatoshi Fukushima's Beiju, IWDFRT 2022, Osaka, Japan, August 22-26 // Zhen-Qing Chen, Masayoshi Takeda, Toshihiro Uemura, editors
Pubbl/distr/stampa	Singapore : , : Springer, , [2022] ©2022
ISBN	981-19-4672-8
Descrizione fisica	1 online resource (572 pages)
Collana	Springer proceedings in mathematics & statistics ; ; Volume 394
Disciplina	519.2
Soggetti	Dirichlet forms Formes (Matemàtica) Probabilitats Homenatges Congressos Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Preface -- List of Masatoshi Fukushima's Publications -- Contents -- Markov Uniqueness and Fokker-Planck-Kolmogorov Equations -- 1 Introduction and Framework -- 2 The Main Idea and a Parabolic Condition for Uniqueness -- 3 Some Uniqueness Results for FPKEs -- 3.1 Fokker-Planck-Kolmogorov Equations -- 3.2 Nondegenerate VMO Diffusion Coefficients -- 3.3 Nondegenerate Locally Lipschitz Diffusion Coefficients -- 3.4 Nondegenerate Diffusion Coefficients and the Lyapunov Function Condition -- 3.5 Degenerate Diffusion Coefficients -- 4 Applications to the Markov Uniqueness Problem -- 4.1 The Framework -- 4.2 Nondegenerate VMO Diffusion Coefficients -- 4.3 Nondegenerate Locally Lipschitz Diffusion Coefficients -- 4.4 Nondegenerate Diffusion Coefficients and Lyapunov Function Conditions -- 4.5 Degenerate Diffusion Coefficients -- References -- A Chip-Firing and a Riemann-Roch Theorem on an Ultrametric Space -- 1 Introduction -- 2 Laplacian and Riemann-Roch Theorem on Ultrametric Space with Finite Vertices -- 3 Unification of

Ultrametric Space with Finite Vertices -- 4 Riemann-Roch Theorem on Ultrametric Space with Countably Many Vertices -- References -- Hermitizable, Isospectral Matrices or Differential Operators -- 1 Hermitizable, Isospectral Matrices -- 2 Hermitizable, Isospectral Differential Operators -- References -- On Strongly Continuous Markovian Semigroups -- References -- Two-Sided Heat Kernel Estimates for Symmetric Diffusion Processes with Jumps: Recent Results -- 1 Introduction -- 2 Stability of Heat Kernel Estimates for Symmetric Diffusions with Jumps -- 2.1 Two-Sided Heat Kernel Estimates -- 2.2 Example -- 3 Symmetric Reflected Diffusions with Jumps in Inner Uniform Domains -- 3.1 Reflected Diffusions on Inner Uniform Domains -- 3.2 Reflected Diffusions with Jumps. 3.3 Heat Kernel Estimates for the beta Subscript asterisk Baseline less than or equals beta Superscript asterisk Baseline less than or equals normal infinity*le* leinfy in StartSet 0 Subscript plus Baseline EndSet union left parenthesis 0 comma normal infinity right bracket{0+}(0, infy] Case -- 3.4 Discussion on Off-Diagonal Heat Kernel Upper Bound -- 3.5 Example -- References -- On Non-negative Solutions to Space-Time Partial Differential Equations of Higher Order -- 1 Introduction -- 2 An Abstract Problem -- 3 Some Translation Invariant Pseudo-differential Operators -- 4 Some Discussions on the Case upper N equals 2N=2 -- 5 Higher Order Partial Differential Equations Admitting Non-negative Solutions -- References -- Monotonicity Properties of Regenerative Sets and Lorden's Inequality -- 1 Introduction -- 2 Lorden's Inequality -- 3 Monotone Potential Density -- 4 Concluding Remarks -- References -- Doob Decomposition, Dirichlet Processes, and Entropies on Wiener Space -- 1 Introduction -- 2 Doob Decomposition in Continuous Time -- 3 Entropies and Couplings on Wiener Space -- References -- Analysis on Fractal Spaces and Heat Kernels -- 1 Introduction -- 2 Classical Heat Kernel -- 3 Examples of Fractals -- 4 Dirichlet Forms -- 5 Walk Dimension -- 6 Besov Spaces and Characterization of beta -- 7 Dichotomy of Self-similar Heat Kernels -- 8 Estimating Heat Kernels: Strongly Local Case -- 9 Estimating Heat Kernels: Jump Case -- 10 Ultra-metric Spaces -- References -- Silverstein Extension and Fukushima Extension -- 1 Introduction -- 2 Silverstein Extensions -- 3 Fukushima Extensions -- 4 Examples of Fukushima Extensions -- 5 Fukushima Subspaces -- 6 Example: Revisit -- References -- Singularity of Energy Measures on a Class of Inhomogeneous Sierpinski Gaskets -- 1 Introduction -- 2 Framework and Statement of Theorems -- 3 Preliminary Lemmas. 4 Proof of the Main Results -- 5 Concluding Remarks -- References -- On upper L Superscript pLp Liouville Theorems for Dirichlet Forms -- 1 Introduction -- 2 Fukushima's Ergodic Theorem -- 3 Regular Dirichlet Forms and Harmonic Functions -- 3.1 Basic Notions and Intrinsic Metrics -- 3.2 Harmonic Functions -- 4 A Caccioppoli Inequality -- 5 Proof of Yau's and Karp's Theorem and Recurrence -- 5.1 Proof of Yau's and Karp's Theorem -- 5.2 Proof of the Growth Test for Recurrence -- References -- On Singularity of Energy Measures for Symmetric Diffusions with Full Off-Diagonal Heat Kernel Estimates II: Some Borderline Examples -- 1 Introduction -- 2 The Examples: Thin Scale Irregular Sierpinski Gaskets -- 3 Space-Time Scale Function upper Psi Subscript bold italic ll and fHKEfHKE left parenthesis upper Psi Subscript bold italic l Baseline right parenthesisfHKE(l) -- 4 Singularity of the Energy Measures -- 5 Realizing Arbitrarily Slow Decay Rates of upper Psi left parenthesis r right parenthesis divided by r squared(r)/r2 -- References -- Scattering Lengths for Additive Functionals and Their Semi-classical Asymptotics -- 1 Introduction -- 2 Scattering Length for Additive Functionals -- 3 Kac's Scattering Length Formula -- 4 Semi-

classical Asymptotics for Scattering Length -- References --
 Equivalence of the Strong Feller Properties of Analytic Semigroups and
 Associated Resolvents -- 1 Introduction -- 2 Preliminaries -- 3
 Equivalence of the Strong Feller Properties -- 4 Application to Markov
 Processes Associated with Lower Bounded Semi-Dirichlet Forms --
 References -- Interactions Between Trees and Loops, and Their
 Representation in Fock Space -- 1 Framework and Definitions -- 2
 Interaction Between Tree and Loops -- 3 Fock Spaces -- 4 Local
 Interaction in Supersymmetric Fock Space -- References -- Remarks on
 Quasi-regular Dirichlet Subspaces.
 1 Introduction -- 2 Quasi-regular Dirichlet Subspaces -- 3 Quasi-
 regular Dirichlet Subspaces of Concrete Dirichlet Forms -- 3.1 One-
 Dimensional Brownian Motion -- 3.2 Multi-dimensional Brownian
 Motion -- 4 Further Remarks -- References -- Power-Law Dynamic
 Arising from Machine Learning -- 1 Introduction -- 2 Background and
 Preliminaries on Power-Law Dynamic -- 2.1 Background in Machine
 Learning -- 2.2 Preliminaries on Power-Law Dynamic -- 3 Property of
 the Stationary Distribution -- 4 Existence and Uniqueness of the
 Stationary Distribution -- 5 First Exit Time: Asymptotic Order -- 6 First
 Exit Time: From Continuous to Discrete -- References -- Hölder
 Estimates for Resolvents of Time-Changed Brownian Motions -- 1
 Introduction -- 2 Main Results -- 3 Preliminary Lemmas -- 4 Proof of
 Theorem 1 -- References -- On the Continuity of Half-Plane Capacity
 with Respect to Carathéodory Convergence -- 1 Introduction -- 2
 Study on the Upper Half-Plane -- 2.1 Basic Definitions and Proof of
 Theorem 1 -- 2.2 Strict Monotonicity -- 3 Study on Parallel Slit Half-
 Planes -- 3.1 BMD Half-Plane Capacity -- 3.2 Markov Chains Induced
 by BMD -- 3.3 Uniform Regularity of Slit Domains -- 4 Relation to
 Geometric Function Theory -- 4.1 Half-Plane Capacity and Angular
 Residue at Infinity -- 4.2 Carathéodory Convergence and Locally
 Uniform Convergence -- References -- Dyson's Model in Infinite
 Dimensions Is Irreducible -- 1 Introduction -- 2 The MathID170 m-
 Labeled Process and the Lyons-Zheng Decomposition -- 3 Proof of
 Theorems 2 and 3 -- 4 Proof of Theorem 1 -- References -- (Weak)
 Hardy and Poincaré Inequalities and Criticality Theory -- 1 Introduction
 -- 2 Preliminaries -- 2.1 Closed Quadratic Forms on upper $L^2(X, \mu)$ and upper
 $L^0(X, \mu)$ Baseline left parenthesis upper X comma μ right
 parenthesis $L^0(X, \mu)$.
 2.2 Extensions of Positivity Preserving Operators -- 3 The Beurling-
 Deny Criteria, Excessive Functions and Extended Forms -- 3.1 Basics
 and Excessive Functions -- 3.2 The Extensions q Subscript e and q
 Superscript $+$ -- 3.3 Invariant Sets and Irreducibility -- 4 (Very)
 Weak and Abstract Poincaré and Hardy inequalities -- 5 From Weak
 Hardy Inequalities to Hardy Inequalities-Subcriticality -- 6 Weak
 Poincaré Inequalities and Completeness of Extended form Domains --
 References -- Maximal Displacement of Branching Symmetric Stable
 Processes -- 1 Introduction -- 2 Symmetric Stable Processes -- 2.1
 Resolvent Asymptotics -- 2.2 Spectral Properties of Schrödinger Type
 Operators with the Fractional Laplacian -- 2.3 Asymptotic Behaviors of
 Feynman-Kac Functionals -- 3 Maximal Displacement of Branching
 Symmetric Stable Processes -- 3.1 Branching Symmetric Stable
 Processes -- 3.2 Weak Convergence and Tail Asymptotics -- 3.3
 Examples -- 4 Proof of Theorem 17 -- References -- Random
 Riemannian Geometry in 4 Dimensions -- 1 Random Riemannian
 Geometries and Conformal Invariance -- 2 Paneitz Energy on 4-
 Dimensional Manifolds -- 3 Co-biharmonic Gaussian Field and
 Quantum Liouville Measure -- 3.1 Conformally Invariant Gaussian Field

-- 3.2 Quantum Liouville Measure -- 4 Approximation by Random Fields and Liouville Measures on the Discrete 4-Torus -- 4.1 The Isotropic Haar System -- 4.2 The Semi-discrete Gaussian Field -- 4.3 The Semi-discrete Liouville Measure -- 4.4 Discrete Random Objects -- References -- Infinite Particle Systems with Hard-Core and Long-Range Interaction -- 1 Introduction -- 2 Preliminaries -- 2.1 Systems of Unlabeled Hard Balls -- 2.2 Systems of Labeled Balls -- 2.3 Skorohod Equation -- 3 Results -- 3.1 Existence of a Weak Solution -- 3.2 Statement of the Results -- 4 Proof of the Main Theorem -- 4.1 Finite Cluster Property.
4.2 On the Lipschitz Continuity of \mathbb{X}
Superscript double struck upper \mathbb{X}
