

1. Record Nr.	UNISA996495170803316
Autore	Benhissi Ali
Titolo	Chain conditions in commutative rings // Ali Benhissi
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	9783031098987 9783031098970
Descrizione fisica	1 online resource (529 pages)
Disciplina	512.4
Soggetti	Commutative rings - Chain conditions Anells commutatius Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Intro -- Preface -- Contents -- 1 S-Noetherian Modules and Rings -- 1 S-Noetherian Modules -- 2 S-Noetherian Rings -- 3 Modules Over S-Noetherian Rings -- 4 Polynomials Over S-Noetherian Rings -- 5 Formal Power Series Over S-Noetherian Rings -- 6 S-Noetherian Pull Backs -- 7 S-Noetherian Amalgamations -- 8 Applications -- 9 Polynomials and Formal Power Series with Coefficients in a Module -- 10 S-Noetherian Nagata Rings -- 11 S-Noetherian t-Nagata Rings -- 12 Formal Power Series Over a Krull Domain -- 13 Polynomials Over a Krull Domain -- 14 Formal Power Series Over a Generalized Krull Domain -- Problems -- Solutions -- References -- 2 S-Artinian Rings and Modules -- 1 Saturated Multiplicative Sets of a Ring -- 2 S-Artinian Rings -- 3 S-Artinian Modules -- 4 S-Cofinite Rings and Modules -- 5 Multiplication Modules -- 6 S-Artinian and S-Cofinite Idealization -- 7 Artinian Rings and Modules -- 8 Application to the Theorem of Generalized Principal Ideal -- 9 Nagata's Example -- Problems -- Solutions -- References -- 3 Almost Principal Polynomial Rings -- 1 Generalities -- 2 Applications of Anderson-Kwak-Zafrullah Theorem -- 3 Characterization of $A[X]$ Almost Principal by the Ideals $f(X)K[X]$ $A[X]$ -- 4 Applications to Extensions of Integral Domains -- 5 The Almost Principal Ideals of the Form $f(X)K[X]A[X]$ in the Ring $A[X]$ -- 6

Applications to Semi-Normal Integral Domains -- 7 The Almost
 Principal Polynomial Rings and the v -Operation -- 8 Generators of the
 Ideal $f(X)K[X]A[X]$ -- 9 Prestable Ideals -- 10 When Is the Ideal $f(X)K[X]$
 $A[X]$ Maximal? -- 11 Application to Goldman Rings -- Problems --
 Solutions -- References -- 4 The SFT and t -SFT Rings -- 1 Krull
 Dimension of the Formal Power Series Ring -- 2 Transfer of the SFT
 Property to the Amalgamation -- 3 Transfer of the SFT Property to the
 Polynomial Ring -- 4 J. Coykendall Example (2002).
 5 Transfer of the SFT Property to the Formal Power Series Ring -- 6 The
 I -Adic Topology on Rings -- 7 Infinite Product of Formal Power Series
 over a Nondiscrete Valuation Domain of Rank One -- 8 The Zeros of
 Formal Power Series -- 9 Infinite Product of Formal Power Series over
 an Integral Domain -- 10 Completion of a Metric Space -- 11 Projective
 Limit of a Projective System of Rings -- 12 Construction of the I -Adic
 Completion of a Ring -- 13 The I -Adic Completion of a Noetherian Ring
 -- 14 The I -Adic Completion of a Valuation Domain -- 15 Generalities
 on the t -SFT Domains -- 16 Transfer of the t -SFT Property to the
 Polynomial Domain -- 17 Transfer of the t -SFT Property to the t -Flat
 Over-Rings -- 18 Chains Condition in the t -SFT Domains -- 19
 Application to Formal Power Series -- Problems -- Solutions --
 References -- 5 Nonnil-Noetherian Rings -- 1 Generalities on Nonnil-
 Noetherian Rings -- 2 The Nilradical of the Formal Power Series Ring --
 3 Krull's Dimension of the Formal Power Series Ring over a Nonnil-
 Noetherian Ring -- 4 Transfer of the Nonnil-Noetherian Property to the
 Ring of Formal Power Series -- 5 Characterization of the Nonnil-
 Noetherian Property by Formal Power Series -- 6 Nonnil- S -Noetherian
 Rings -- Problems -- Solutions -- References -- 6 Strongly Hopfian,
 Endo-Noetherian, and Isonoetherian Rings -- 1 Generalities on the
 Strongly Hopfian Rings -- 2 The Zero Dimensional Rings -- 3 Auto-
 Injective Rings -- 4 Product of Zero Dimensional Rings -- 5 Injection in
 a Zero Dimensional Ring -- 6 Polynomials Over a Strongly Hopfian Ring
 -- 7 Formal Power Series Over a Strongly Hopfian Bounded Ring -- 8
 Formal Power Series Over a Chained Ring -- 9 Formal Power Series Over
 a Ring with Nonzero Characteristic -- 10 Study of an Example -- 11
 Other Criteria for the Strong Hopfianity -- 12 Power Series Armendariz
 Rings -- 13 Endo-Noetherian Rings.
 14 Polynomials and Formal Power Series Over an Endo-Noetherian Ring
 -- 15 Polynomials and Formal Power Series Over a PF-Ring -- 16
 Isonoetherian Valuation Domains -- 17 Isonoetherian Modules -- 18
 u -Isonoetherian Extensions of Rings -- 19 Isonoetherian Rings of the
 Form $A+XB[X]/A+XB[[X]]$ -- 20 Isonoetherian Nagata's Idealization Ring
 -- Problems -- Solutions -- References -- Index.
