Sommario/riassunto

Each year, too many law enforcement officers die in the line of duty and too many people are killed by the police. Yet, can any of these deaths be avoided? To answer this we must investigate the nature and causes of these deaths in an unbiased and objective manner to highlight and expose weaknesses in policy that can be amended through more rigorous, enlightened, and culture-sensitive training. Examining hypothetical cases drawn from the most prevalent and typical officer-involved deaths in recent years, Investigation and Prevention of Officer-Involved Deaths
