Nota di contenuto	Image processing and diagnosis -- Machine Learning and Optimization -- Machine Learning and Optimization -- Modelling -- Database systems -- Applications -- DETECT Workshop: modeling, verification and testing of dependable critical systems.
Sommario/riassunto	This volume constitutes short papers and DETECT 2022 workshop papers, presented during the 11th International Conference on Model and Data Engineering, MEDI 2022, held in Cairo, Egypt, in November 2022. The 11 short papers presented were selected from the total of 65 submissions. This volume also contains the 4 accepted papers from the DETECT 2022 workshop, held at MEDI 2022. The volume focuses on advances in data management and modelling, including topics such as data models, data processing, database theory, database systems technology, and advanced database applications.
