Nota di contenuto	Front Matter -- Contents -- Acknowledgements -- Preface -- Foreword -- List of abbreviations -- A functional framework -- Crowdfunding and the changing dynamics of public interest judicial review -- The tribunals gamble -- How digital administrative justice is made -- Conclusion -- Index
Sommario/riassunto	Available Open Access under CC-BY-NC licence. Exploring how justice is delivered at a time of rapid technological transformation, Justice in the Digital State exposes urgent issues surrounding the modernisation of courts and tribunals whilst examining the effects of technology on established systems. Case studies investigate the rise of crowdfunded judicial reviews, the digitalisation of tribunals and the rise of 'agile' methodologies in building administrative justice systems. Joe Tomlinson's cutting-edge research offers an authoritative and much-needed guide for navigating through the challenges of digital disruption.
