A Chinese New Deal or the Neoliberal Hegemony? -- Bibliography -- Index
Sommario/riassunto	In Enduring Change, Ju Li explores the concrete labor and social history of one particular Third-Front industrial complex in China from the 1960s to the globalized present. By connecting the micro-historical-ethnographic research with larger structural dynamics, Li provides a vivid, in-depth, and multi-layered account of how the transformative history of the past half-century has manifested itself in this small

industrial site and how several generations of workers there have lived through these turbulences.
