Sommario/riassunto	50 years after the establishment of the Runnymede Trust and the Race Relations Act of 1968 which sought to end discrimination in public life, this accessible book provides commentary by some of the UK's foremost scholars of race and ethnicity on data relating to a wide range of sectors of society, including employment, health, education, criminal justice, housing and representation in the arts and media. "This is simply a must-read book for all those who want to understand

racial inequalities in British society. It provides an up-to-date and convincing case that we have a long way to go in terms of achieving racial justice.” -- John Solomos, University of Warwick.
